HALCO®

SOLUTIONS THAT CONNECT

MILITARY & LAW ENFORCEMENT SOLUTIONS

Mil-spec hook and loop fastening systems for manufacturers of tactical gear, body armor, emergency response equipment and UAS platforms.

MATERIALS & ADHESION

HALCO® supplies mil-spec and specialty hook and loop, supported by engineered adhesives and application-specific fastening solutions for demanding products and substrates.

- Woven nylon hook and loop
- Specialty, wide and elastic loop
- Flame-resistant materials
- Weldable fastening systems
- Adhesive-backed components
- Adjustable straps and closures

MILITARY APPLICATIONS

HALCO® supports manufacturers across the defense and law-enforcement supply chain, from personal protection and field equipment to emergency response and unmanned systems.

- Body armor and ballistic helmets
- Holsters, belts and duty gear
- Military tents and shelters
- Medical and emergency response
- Military transport and aerospace
- UAS and cable management

MISSION-READY FASTENING SOLUTIONS

Specialist hook and loop materials and custom-converted components for demanding military, tactical and law-enforcement applications.

MIL-SPEC & SPECIALTY MATERIALS

A-A-55126C woven nylon, unnapped, wide and elastic loop for body armor, helmets, tactical apparel, pouches and adjustable equipment.

ADHESIVE & WELDABLE SYSTEMS

Adhesive-backed and weldable fasteners for helmet components, equipment panels, holsters, tents and weather-resistant shelter seams.

SELF-ENGAGING & STRAP SOLUTIONS

Back-to-back and mixed hook and loop, cable ties and fabricated straps for equipment retention, medical products and reusable cable management.

CUSTOM CONVERTING & FABRICATION

HALCO® converts hook and loop materials into production-ready components tailored to your sewing and assembly process.

- Precision slitting, custom widths and lengths
- Die-cut shapes, tabs and patches
- Adhesive lamination and nylon fabric backings
- Custom straps and cable ties with optional buckles and printing

Fastenings for Drones

Lightweight, vibration-tolerant HALCO® straps and die-cut cable ties secure batteries, payloads, wiring and antennas on tactical UAS platforms.

Request samples, specifications, pricing or help selecting the right HALCO® fastening solution for your application.
