HINGE WINDOW DV

The Hinge Window is a very economical deer stand window that mounts inside over your existing opening with ease. It is manufactured with a fully weather-stripped aluminum frame, with double strength marine glazed glass. This window will protect your blind from all unwanted pests, and acts as a great wind block. This style of window allows access to the entire opening.

This Hinge Window can be hinged vertically for bow hunters (swinging left or right), or hinged horizontally for rifles (swinging up or down)
