BOOTH 51324

LAS VEGAS, January 2027 — Ammo Rx, a veteran-owned ammunition manufacturing partner, will exhibit at booth 51324 in the SHOT Show 2027 Supplier Showcase, held Jan. 18–19, 2027, in the Palazzo Ballroom on Level 5 of the Venetian Expo in Las Vegas, where it will meet with manufacturers planning new ammunition plants or adding capacity.

Ammo Rx provides project management and equipment from cup to cartridge: stamping presses for blanks and cups, case draw, head turn and trim, bullet swage and assembly, primer insertion and crimp, load and assemble, inspection and packaging. The company can supply a single machine upgrade, a complete case, projectile or load, assembly and packaging line, or a turnkey ammunition factory.

Its systems use servo-driven presses, machine networking and data feedback to improve consistency and reduce waste, and its automated load, assembly and packaging lines can charge, prime, seat, inspect and package more than 200 rounds per minute. Ammo Rx's team of manufacturing engineers, project managers, a ballistician and a veteran sniper works as an extension of the customer's engineering staff, from process development through startup.

Sister company Finishing Rx, which supplies metal finishing equipment, media and process support, will exhibit at booth 51322.

SUPPLIER SHOWCASE HOURS (PACIFIC)

Monday, Jan. 18, 8:30 a.m.–4:30 p.m.; Tuesday, Jan. 19, 8:30 a.m.–4 p.m.

ABOUT AMMO RX

Ammo Rx LLC is a veteran-owned and operated ammunition manufacturing partner based in Schaumburg, Illinois. Its team of manufacturing engineers, project managers, a ballistician and a veteran sniper provides equipment, consumables, consulting and project management across case and projectile manufacturing, load, assembly and packaging lines, inspection, and wash, pickle and polish systems, up to complete turnkey ammunition factories. Ammo Rx helps manufacturers start new plants, add capacity and upgrade existing lines, using servo-driven systems, automated inspection and data feedback. Learn more at ammo-rx.com.
