FOR IMMEDIATE RELEASE

Evolve Payment to Attend SHOT Show, Showcasing Accounts Receivable & Shopify-Integrated Payment Solutions for the Firearms Industry

Las Vegas, NV — Evolve Payment, a veteran-owned leader in accounts receivable and compliant payment solutions, announces its attendance at the **SHOT Show** in **Las Vegas**. The company will be engaging with firearms manufacturers, distributors, and industry professionals seeking reliable, cost-effective payment infrastructure tailored to the unique demands of the firearms marketplace.

Evolve Payment specializes in modern accounts receivable solutions designed to improve cash flow, reduce operational friction, and simplify invoicing workflows. By combining payment processing, invoicing, and receivables management into a unified ecosystem, Evolve Payment helps firearms businesses operate more efficiently while navigating complex compliance considerations.

A key differentiator for Evolve Payment is its ability to integrate seamlessly with **Shopify**, enabling firearms-related businesses to leverage powerful ecommerce tools without introducing unnecessary processing penalties or heightened deplatforming concerns. Evolve Payment's solutions are structured with compliance and stability at the forefront, providing merchants with a payment framework designed specifically for regulated and scrutinized industries.

"At Evolve Payment, we understand that firearms businesses face distinct challenges when it comes to payments and accounts receivable," said Donald Raleigh, President of Evolve Payment. "Our goal is to provide dependable, transparent, and cost-effective solutions that allow our partners to focus on growth rather than payment uncertainty."

In addition to ecommerce and accounts receivable capabilities, Evolve Payment supports government purchasing workflows, offering solutions that align with procurement requirements often encountered by manufacturers and suppliers serving public sector clients.

Evolve Payment looks forward to meeting colleagues, partners, and firearms manufacturers at SHOT Show who are evaluating new approaches to invoicing, receivables management, and payment processing stability.

About Evolve Payment
Evolve Payment provides specialized payment processing and accounts receivable solutions for regulated and complex industries. The twenty-three year old company focuses on delivering compliant, reliable, and cost-effective financial infrastructure that supports sustainable business growth.
