Automated Business Designs Named One of the Nation's Best and Brightest Companies to Work For® in 2017

Staffing Software provider wins prestigious company culture award.

CHICAGO ([PRWEB](#)) January 08, 2018 -- Automated Business Designs (ABD), developers of Ultra-Staff staffing software, was named one of the Nation's Best and Brightest Companies to Work For® in 2017! This prestigious honor is not the first time ABD has been acknowledged by The Best and Brightest program. The software company was recognized as one of Chicago's Best and Brightest Companies to Work For® in both 2016 and 2017.

The Best and Brightest Companies to Work For® competition is presented by the National Association for Business Resources and honors companies with exceptional human resource practices and employee engagement. The program seeks to recognize innovative, trend-setting organizations with a deep commitment to employee fulfillment. Organizations must complete a rigorous application detailing a vibrant company culture to qualify for the award.

"ABD feels proud and privileged to receive this award," said Terri Roeslmeier the President and CEO of Automated Business Designs, "Our employees are the 'best in the industry' and our goal as an employer is to retain top talent. Our team truly cares about our customers and about the company. We are honored to have such a great group of people and want to do all that we can to make sure they are happy, fulfilled, well-compensated and challenged."

ABD's nomination included details of their comprehensive benefits package, exceptional health and wellness program, and spectacular company culture. For example, ABD employees enjoy complimentary gym memberships, a kitchen stocked with healthy snacks, unique office events, and community service projects; those are just a few reasons why ABD is one of the Best and Brightest Companies to Work For® in the United States.

The staffing software provider was also judged by confidential ABD employee responses. Those overwhelmingly positive responses helped ABD receive this distinguished recognition. ABD received a particularly high score in the employee enrichment, engagement, and retention category.
