Chicagoland Swiss Machining Expands Precision Manufacturing Capabilities in Lombard, Illinois.

Lombard, IL — 3/20/26 — Chicagoland Swiss Machining, a leading provider of high-precision CNC Swiss machining services, is proud to announce continued growth and expanded capabilities at its Lombard, Illinois facility. Known for delivering exceptional quality and tight-tolerance components, the company is strengthening its position as a trusted partner for industries requiring precision engineering.

Located in DuPage County, Chicagoland Swiss Machining specializes in the production of complex, small-diameter parts for industries including firearm, defense, medical devices, aerospace, automotive, and electronics. By leveraging advanced Swiss-style CNC technology, the company consistently achieves superior accuracy, efficiency, and repeatability.

"Our mission has always been to provide unmatched precision and reliability to our customers," said Nick Bratta, President of Chicagoland Swiss Machining. "With our expanded capabilities and continued investment in cutting-edge equipment, we're able to meet increasing demand while maintaining the highest quality standards."

The company's Lombard facility is equipped with state-of-the-art machinery, enabling production of intricate components with micron-level tolerances. In addition to machining, Chicagoland Swiss Machining offers value-added services such as prototyping, finishing, and assembly, providing customers with a streamlined, end-to-end manufacturing solution.

Chicagoland Swiss Machining remains committed to innovation, quality assurance, and customer satisfaction. By combining experienced machinists with advanced technology, the company ensures each project is delivered on time and to exact specifications.
