## About us

SD dehumidification products are mainly presented in the form of a “stone” in various markets which is the first to be developed worldwide. It’s core technology includes natural Silica sand with biodegradable patented formula and forming process. The dehumidifier stones are filled with a large amount of Nano-pores with strong moisture absorption and regeneration ability.
The restored moisture within the stones can be discharged by heat and then again absorb moisture repeatedly, within a 10 years life span.

- **MINE**

# INVISIBLE

Dehumidifier Stone

For pistol case

## About
## INVISIBLE DEHUMIDIFIER

Provides dehumidification for confined space, such as pistol case, ammo box, optics and fits in any small space. Having issues with small space dehumidification, don' t miss this little guy.

GUN dehumidifier | Anti-rust | Reusable | Protective

GUN CASE | INVISIBLE DEHUMIDIFIER

### Product Specification

| | | |
|---|---|---|
| Material \| Nano Porous Silicon | Net weight \| 30 g ±10% | Dimension \| 5.2 x 3.3 x 2 cm |
| Volume of absorption \| 8 g ±10% (25°C, 85% RH) | | Working space \| 30 L / 1 CUFT |
| Applications \| Guns, Airsoft, Tactical Gear, Outdoors and Hunting related, etc… | | |

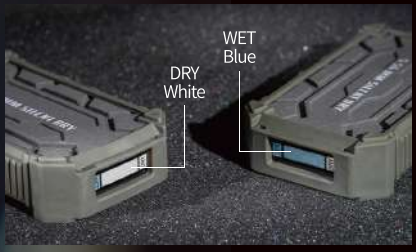
### How to renew

Microwave for 5 mins at defrost mode(200W-300W) or in oven for 50 mins at 150°C or 300°F.

**PIONEER is the first dehumidifier stone specially designed for guns, combined with a tactical appearance which military fans would love and is one of the best seller under SILENT DRY products.**

# PIONEER

Dehumidifier Stone



GUN dehumidifier | Anti-rust | Reusable | Humidity indicator

GUN CASE | PIONEER DEHUMIDIFIER

## About PIONEER DEHUMIDIFIER

Applied for rifle case/bag, tactical backpack and storage for your gear, with a color indicator that changes based on the internal humidity status. PIONEER can be simply renewed by microwave or oven for repeatedly usage.

### Product Specification

| | | |
|---|---|---|
| Material ㅣ Nano Porous Silicon | Net weight ㅣ 120 g ±10% | Dimension ㅣ 11 x 6.5 x 2 cm |
| Volume of absorption ㅣ 30 g ±10% (25°C, 85% RH) | | Working space ㅣ 120 L / 5 CUFT |
| Applications ㅣ Guns, Airsoft, Tactical Gear, Outdoors and Hunting related, etc… | | Casing ㅣ TPV |

### How to renew

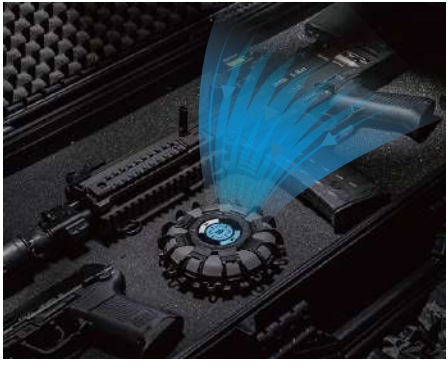
Microwave for 9 mins at defrost mode(200W-300W) or in oven for 50 mins at 150°C or 300°F.

# MINE

Dehumidifier Stone

For double rifle case

GUN CASE | MINE DEHUMIDIFIER



## About
## MINE DEHUMIDIFIER

The increase of size comes with greater moisture absorption and capacity and with a color indicator that changes based on the internal humidity status. If you own a large gun case or at a high humidity level location, place a MINE to get the job done.

GUN dehumidifier | Anti-rust | Reusable | Humidity indicator

### Product Specification

| | | |
|---|---|---|
| Material \| Nano Porous Silicon | Net weight \| 250 g ±10% | Dimension \| Ø13.5 X 2 cm |
| Volume of absorption \| 63 g ±10% (25°C,85% RH)/piece | | Working space \| 250 L / 9 CUFT |
| Applications \| Gun, Airsoft , Tactical Gear, Knives, Hunting-related. | | Casing \| ABS |

### How to renew

Microwave for 11 mins at defrost mode(200W-300W) or in oven for 120 mins at 150°C or 300°F.

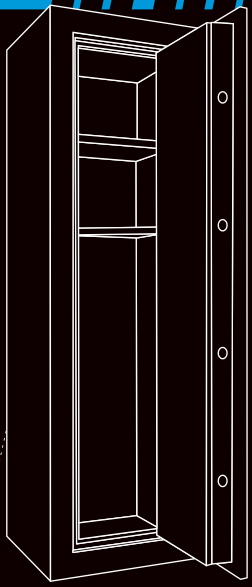
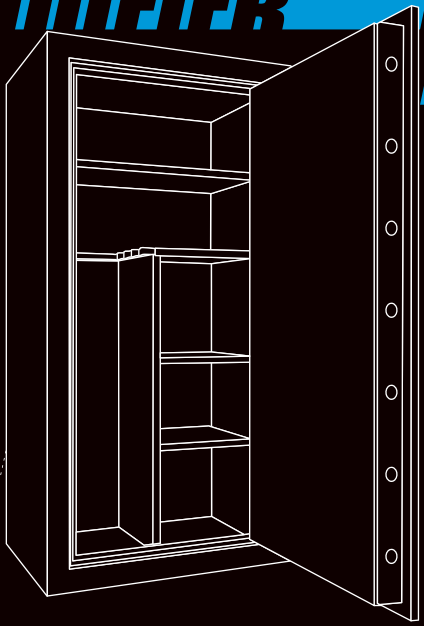
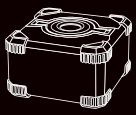
# GUN SAFE DEHUMIDIFIER





• SHOTGUN Jr.

• HYPERCUBE



# SHOTGUN Jr.

Dehumidifier Stone

For gun safe

## About SHOTGUN Jr. DEHUMIDIFIER

The upright design allows Jr. to be placed in small gun safes / vaults with a color indicator that changes based on the internal humidity status. With the appearance of a jumbo sized shotgun shell, Jr. is not just a dehumidifier but can also be decorative.

- Absorbs moisture gun case/safe
- Anti-rust
- Reusable
- Humidity indicator

GUN SAFE | SHOTGUN Jr. DEHUMIDIFIER

### Product Specification

| | | |
|---|---|---|
| Material \| Nano Porous Silicon | Net weight \| 260 g ±10% | Dimension \| Ø 8.8 x 16 cm |
| Volume of absorption \| 65 g ±10% (25°C, 85% RH) | | Working space \| 260L / 9 CUFT |
| Applications \| Guns, Airsoft, Tactical Gear, Outdoors and Hunting related, etc… | | Casing \| PP |

### How to renew

Remove the shell and renew by microwave for maximum 11 minutes at 200~300 W.

# HYPERCUBE

Gun Safe Dehumidifier

GUN SAFE | HYPERCUBE DEHUMIDIFIER

## Correspond to 600L/800L/1000L gun safes/vaults

HYPERCUBE has a hygrometer attached to it for instant humidity monitoring. Regardless of its size, HYPERCUBE can also be simply renewed by microwave or oven for repeatedly usage.

| Absorbs moisture gun case / safe | Anti-rust | Reusable | Hygrometer |
|---|---|---|---|

## About
## HYPERCUBE DEHUMIDIFIER

Provides dehumidification for large spaces such as gun safes/vaults. Unlike other dehumidifier products on the market, HYPERCUBE uses 90% less plastic due to environmental considerations. If you have a collection of guns locked up in a safe, you should definitely try this one.

### Product Specification

| Working space | 1000L / 40 CUFT |

# VAPORTACK BULLETS

Volatile Corrosion Inhibitor

For firearms

Anti-rust

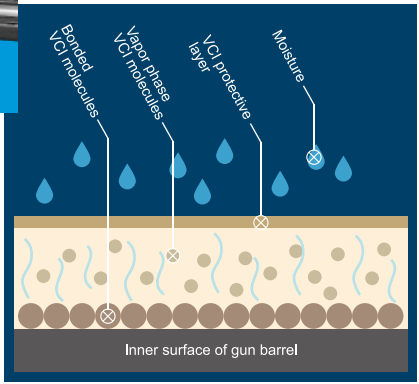
1:1 Ratio

## About VAPORTACK BULLETS

Preventing corrosion and rust inside of your barrel with the help Volatile Corrosion Inhibitor (V.C.I.) technology. Releasing compounds into an airspace actively dissolving water vapor in the air to prevent corrosion and rust by forming strong oxide layer on metal surfaces.

VAPORTACK has developed a 1:1 ratio bullet designs filled with VCI antidotes which can be placed inside the chamber for anti-rust protection.

VAPORTACK uses gasification to dissolve water vapor from the air.



### Product Specification

Casing: ABS

| | | | | |
|---|---|---|---|---|
| Net weight \| 2.1g±10% | Net weight \| 1.4g±10% | Net weight \| 2.1g±10% | Net weight \| 2.1g±10% | Net weight \| 11.2g±10% |
| Working space \| .45 caliber | Working space \| 9 mm caliber | Working space \| 5.56 caliber | Working space \| 7.62 caliber | Working space \| 12 GA shotgun |

### How it works

1. Load 1 piece VAPORTACK into the chamber tube.
2. VAPORTACK releases compounds, actively dissolving vapor, forming a protective layer on metal surface and prevents corrosion and rust towards the inner barrel.
3. Dispose VAPORTACK when the indicator turns from orange to white and replace with a new one ( 1 year duration)
