GNP DEFEND

GNP DEFEND is an American-owned company dedicated to providing cutting-edge firearm care solutions for peak performance and reliability. Our advanced formulas deliver superior lubrication, deep-cleaning action, and precision maintenance to keep firearms operating at their best.

Trusted by professionals, enthusiasts, and law enforcement, our products are NATO APPROVED and have undergone rigorous military testing on eight different firearms with 10,000 rounds fired under extreme conditions of use and weather. We not only met but surpassed the standards, ensuring unmatched durability and performance. GNP Defend is committed to protecting and enhancing every shot with top-tier innovation and quality.

DEGREASER CLEANER

GUN DEGREASER CLEANER:

- ☑ **Effective cleaning:** quickly removes old oil, powder residue, and other contaminants from metal surfaces.
- ☑ **Deep penetration:** reaches into hard-to-access areas to ensure thorough cleaning of all components.
- ☑ **Moisture removal:** completely eliminates moisture, helping to prevent corrosion and extend the lifespan of the firearm.
- ☑ **No residue or odor:** leaves no trace or smell, ensuring clean and precise mechanical operation.
- ☑ **Versatile application:** suitable for all metal surfaces, making firearm maintenance simple and efficient.

AREA OF USE

Op rod, barrel hood, cam pin, open ejection port, slide rail groove, center rail, action spring and other movable parts.

GUN CLEANER

GNP DEFEND GUN CLEANER:

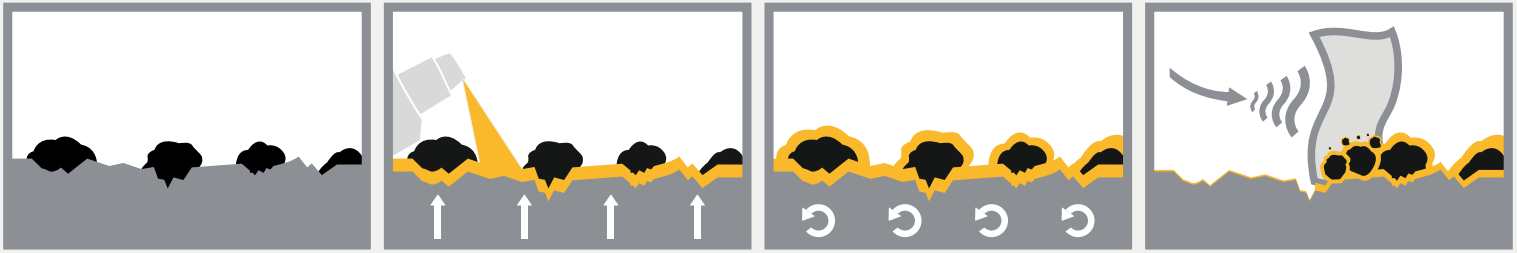
- ☑ **Quick & Effective:** Removes carbon, old grease, copper, lead, and zinc with ease.
- ☑ **Fast-Acting Performance:** Breaks down residue quickly to keep firearms in peak condition. For best results, allow 5 to 10 minutes after application before cleaning.
- ☑ **Superior Corrosion Protection:** Provides lasting defense against rust and wear.
- ☑ **Versatile Use:** Safe on all metals, plastic, rubber, wood, paint, and ceramic surfaces.
- ☑ **Water-Based Formula:** Non-flammable and safe for home use.
- ☑ **No Harsh Chemicals:** Free of ammonia, alcohol, and abrasive solids.
- ☑ **No Strong Odor:** Designed for a more comfortable cleaning experience.

AREA OF USE

Op rod, barrel hood, cam pin, open ejection port, slide rail groove, center rail, action spring and other movable parts.

GUN CLEANER FUNCTION

From the moment of contact, active ingredients permeate into the metal and micro-cracks on a nanoscale level. Carbon, copper, lead, and zinc are separated from the metal, where the cleaner dissolves and suspends the debris. As you wipe away the debris, a thin layer of protective coating is left on the barrel, protecting it from corrosion.



1. Each time the firearm is used, it creates carbon deposits and dirt. Only appropriate care and cleaning of the weapon will extend its lifespan.

2. Residue and powder buildup are effectively separated from the metal.

3. Gun Cleaner forms a protective layer that lifts and removes residue from the surface.

4. It removes residue and impurities, leaving your firearm clean and protected.

BORE CLEANING FOAM

GNP DEFEND BORE CLEANING FOAM:

- ☑ **Fast-Acting Performance:** Breaks down residue quickly to keep firearms in peak condition and cleans the inside of the barrels. For best results, allow 10 to 15 minutes after application before cleaning.
- ☑ **Quick & Effective:** Removes carbon, old grease, copper, lead, and zinc with ease.
- ☑ **Superior Corrosion Protection:** Provides lasting defense against rust and wear.
- ☑ **Versatile Use:** Safe on all metals, plastic, rubber, wood, paint, and ceramic surfaces.
- ☑ **Water-Based Formula:** Non-flammable and safe for home use.
- ☑ **No Harsh Chemicals:** Free of ammonia, alcohol, and abrasive solids.
- ☑ **No Strong Odor:** Designed for a more comfortable cleaning experience.

AREA OF USE

Op rod, barrel hood, cam pin, open ejection port, slide rail groove, center rail, action spring and other movable parts.

GUN OIL

GNP DEFEND GUN OIL:

- ☑ **Superior Corrosion Protection:** Provides long-lasting defense against rust and wear.
- ☑ **Deep Penetration & Lubrication:** Reaches hard-to-access areas, reducing friction and enhancing performance.
- ☑ **Moisture-Displacing Formula:** Prevents rust by pushing out moisture from metal surfaces.
- ☑ **Long-Lasting Coating:** Forms a durable, clear, and super-light protective layer.
- ☑ **Temperature Resistant:** Maintains performance in extreme conditions from -76°F to +482°F (-60°C to +250°C).
- ☑ **Versatile Application:** Safe on metal, wood, paint, varnish, ceramics, rubber, and plastic.
- ☑ **Cleans & Protects:** Removes powder residue, dust, old grease, and surface rust while keeping firearms in peak condition.
- ☑ **Non-Drip Formula:** Stays in place without dripping for efficient application.
- ☑ **Odor-Free & Non-Toxic:** Safe for extended use without harsh smells.
- ☑ **Works on Wet Surfaces:** Can be applied even in damp conditions for continuous protection.
- ☑ **Extends Firearm Lifespan:** Significantly increases durability and reliability over time.

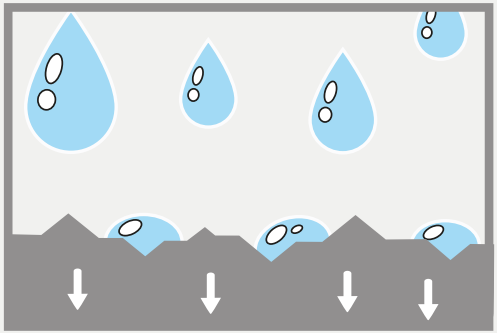
AREA OF USE

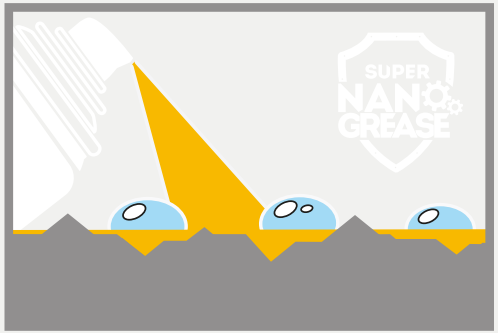
Op rod, barrel hood, cam pin, open ejection port, slide rail groove, center rail, action spring and other movable parts.

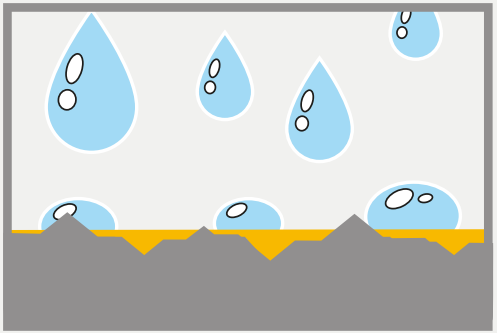
FUNCTION

GNP DEFEND Gun Oil uses advanced nanoparticle technology to deeply penetrate the metal structure, effectively displacing moisture, old grease, and surface oxidation. By creating a protective barrier, it halts existing corrosion and prevents future rust formation.

Designed for versatility, it can be applied to damp surfaces without compromising performance. Safe for all materials, it reaches hard-to-access areas, ensuring comprehensive lubrication and long-lasting protectionn be applied to damp surfaces. It is harmless to all materials and penetrates into hard-to-reach places.







1. Proper firearm maintenance is essential to prevent wear and tear on metal components.

2. Deep Penetration & Protection: Gun Oil penetrates at the molecular level, reaching deep into the surface to lubricate and shield metal parts from friction and corrosion.

3. Water-Repellent Barrier: Forms an invisible protective film that repels moisture, preventing rust and extending the lifespan of your firearm. Providing Long-Lasting Wear Protection.

TEST SALT CHAMBER SPRAY FOR RED CORROSION

SILICONE OIL

GNP DEFEND SILICONE OIL

Designed for Air & Gas-Powered Guns: Ideal for paintball guns, Airsoft guns, strike ball, and air guns, ensuring smooth performance and longevity.

- ☑ **Preserves & Protects:** Maintains elasticity, prevents aging, and extends the life of components.
- ☑ **Superior Lubrication:** Reduces friction by acting as a slip agent for rubber and plastic parts.
- ☑ **Long-Lasting & Water-Resistant:** Does not evaporate, repels water, and protects against dirt buildup.
- ☑ **Safe for Various Materials:** Won't damage wood, metal, plastic, or painted surfaces, ensuring complete care.

SYNTHETIC GREASE

GNP SYNTHETIC GREASE

Maximum Protection for Your Firearm

GNP Synthetic Grease is a high-performance synthetic lubricant designed to ensure reliable and consistent operation of firearms under a wide range of conditions — from extreme heat to severe cold. It effectively prevents friction, corrosion, and premature wear.

Key Benefits:

- ☑ Reliable protection against friction and wear.
- ☑ Performs under extreme loads and temperatures.
- ☑ Safe for plastic, rubber, and wood.
- ☑ Economical consumption and long-lasting performance.

GNP Synthetic Grease the professional choice for those who value reliability, durability, and top-tier performance in every detail.

OPTIC CLEANER

GNP DEFEND OPTIC CLEANER:

- ☑ **Advanced Cleaning for Precision Optics:** Effectively cleans glass surfaces, removing grease, fingerprints, pollen, and other debris with ease.
- ☑ **Hydrophobic & Streak-Free Formula:** Creates a protective water-repellent layer, dries quickly, and leaves a crystal-clear finish with no streaks.
- ☑ **Safe for Delicate Surfaces:** Harmless to plastics and anti-reflective coatings, ensuring long-term clarity and durability.
- ☑ **Perfect for:** Optical sights, binoculars, camera lenses, telescopes, night vision goggles, and protective eyewear.
- ☑ Provides long-lasting protection against dirt buildup.
- ☑ Safe, free from harmful substances.

GUN CLEANING GUIDE

Company Mission

At **GNP DEFEND**, we believe firearms are powerful tools that deserve care and respect. Proper cleaning and maintenance ensure your firearm stays safe, reliable, and long-lasting. Our goal is to provide high-quality cleaning products and easy-to-follow guides so every gun owner can maintain their firearm with confidence.

Why You Must Clean Your Firearm After Shooting?
If a firearm is left dirty for months, it can cause serious problems:

1. Rust and Corrosion.
Powder, moisture, and residue will eat away at metal parts—especially the barrel and bolt.
Humid storage speeds up rust.

2. Mechanical Issues.
Carbon buildup and dirty oil create sticky sludge, leading to jams, misfires, and stuck parts.

3. Poor Accuracy and Performance.
Residue in the barrel can reduce bullet speed and throw off accuracy by changing the bullet's path.

4. Breakdowns.
Left uncleaned, a gun may stop working reliably—and in some cases, parts may seize and need replacing.

5. Safety Hazards.
Dirt and buildup can prevent proper bolt closure, risking barrel damage or injury if a bullet gets stuck.

A dirty gun is unreliable and dangerous.
Clean it after every use to keep it safe and working properly.

STEP 1 - Safety First

Before cleaning your firearm:

- ☑ Make sure it is unloaded – remove the magazine, check the chamber.
- ☑ Keep ammunition stored away while cleaning.
- ☑ Work in a safe, well-ventilated area with protective gloves and goggles.

STEP 2 - What You'll Need

GNP Cleaning Products:

- ☑ **Degreaser Cleaner** - Removes old oils and residue.
- ☑ **Gun Cleaner** - Cleans carbon, grease, and metal buildup.
- ☑ **Bore Cleaning Foam** - Removes stubborn residue inside the barrel.
- ☑ **Synthetic Grease** - Lubricates moving parts.
- ☑ **Gun Oil** - Protects against rust and wear.

Tools:

- ☑ Cleaning rod, bore snake, or brushes (match the gun's caliber).
- ☑ Cotton patches, cloths, and swabs.
- ☑ Compressed air (optional).

STEP 3 - Preparing for Cleaning

GNP Cleaning Products:

- ☑ Disassemble your firearm following the manufacturer's guide.
- ☑ Remove visible dust and dirt using a soft brush or compressed air.

STEP 4 - Deep Cleaning Steps

1. Use Degreaser Cleaner:

☑ Spray on all dirty parts to break down oil and grime.

☑ Wipe off or let it evaporate naturally.

2. Apply Bore Cleaning Foam (For Barrel Cleaning):

☑ Spray inside the barrel and let it sit for 10-15 minutes.

☑ Run a cleaning rod or bore snake through the barrel until clean.

3. Use Gun Cleaner (For Remaining Dirt & Carbon Buildup):

☑ Spray on all dirty parts. Wait 5-10 minutes.

☑ Scrub with a brush or cloth, then wipe it clean.

4. Use Degreaser Cleaner:

☑ Spray on all parts to wash of all remaining Gun Cleaner solution

5. Apply Gun Oil (For Overall Protection):

☑ Lightly coat all metal parts to prevent rust.

☑ Before shooting, wipe off excess oil from the barrel.

STEP 5 - Reassembling Your Firearm

GNP Cleaning Products:

☑ Put all parts back together and check that everything functions properly.

☑ Store in a dry, safe place away from moisture and unauthorized access.

STEP 6 - Cleaning Your Optic (If Applicable)

☑ Use Optic Cleaner to keep scopes and sights crystal clear.

PACKAGING

GUN OIL

Aerosol:

100 ml 3.4 oz. / 200 ml 6.8 oz. / 400 ml 13.5 oz.

Box: 12 pcs.
