**Webaround Exhibits Simple Green Screen Solution at ASCD Empower18**  
Introducing the simplest green screen and webcam background solution to educators everywhere

BOSTON, MA-- For the first time ever Webaround will be exhibiting their revolutionary green screen and webcam background to educators at ASCD Empower18 on March 24–26, 2018, in Boston, Massachusetts, at the Boston Convention and Exhibition Center. The Webaround will be exhibiting their simple, easy to use technology in real time at booth 931.

“We are so excited to showcase the Webaround at ASCD Empower18. We really think that every educator who uses a webcam should have a Webaround to ensure privacy, safety, and professionalism for them and their students”, said CEO, founder and inventor of the Webaround, Linda Bovay. She continued, “I invented the Webaround to be a simple, easy background solution for everyone using a webcam”.

The Webaround is offered in four sizes as well as blue, grey and chroma-key green:

- 42” round
- 52” round
- 56” round
- 52” square

#### About The Webaround

The Webaround is a product and a company dreamed up late at night inside a Detroit area Intensive Care Unit. After interacting with a doctor via webcam who had a messy background Linda Bovay knew she had to invent something quick, easy, and mobile for people using a webcam. She invented the Webaround, an affordable, collapsible, portable webcam background and green screen. The Webaround is made of neoprene, nylon fabric and high quality spring steel for decades of use. The Webaround is a small business proud to be woman-owned and based out of Michigan.
