DOWA THT AMERICA to Showcase Heat Treatment Services and Furnace Equipment at SHOT SHOW Supplier Showcase 2027

BOWLING GREEN, OHIO — DOWA THT AMERICA, INC. will connect with firearm manufacturers and industry suppliers at the SHOT SHOW Supplier Showcase 2027 to introduce its commercial heat treatment services and industrial heat treatment furnace equipment solutions.

Established in 1997, DOWA THT AMERICA is part of the DOWA Group, a Japanese industrial group founded in 1884 with more than 140 years of history in industrial technology and materials. The group's businesses span heat treatment, metal processing, electronic materials, nonferrous metals, and environmental management and recycling. Source: DOWA Holdings

DOWA THT AMERICA provides a range of commercial heat treatment processes, including carburizing, carbonitriding, nitriding, ferritic nitrocarburizing (FNC), hardening, quench and temper, and annealing. These processes help manufacturers achieve specified material properties and component performance requirements.

In addition to its commercial heat treatment services, DOWA THT AMERICA offers industrial heat treatment furnace equipment solutions, including equipment design, manufacturing coordination, installation, and service. These capabilities support manufacturers seeking an external heat treatment provider as well as those evaluating furnace equipment for their own production operations.

DOWA THT AMERICA welcomes opportunities to discuss heat treatment requirements, new component programs, and furnace equipment needs with firearm manufacturers and industry suppliers. The company looks forward to building relationships with manufacturers seeking reliable heat treatment services and equipment solutions.
