RPNB Safe to Exhibit at 2027 SHOT Show with Expanded Line of Fireproof Gun Safes and Biometric Storage Solutions

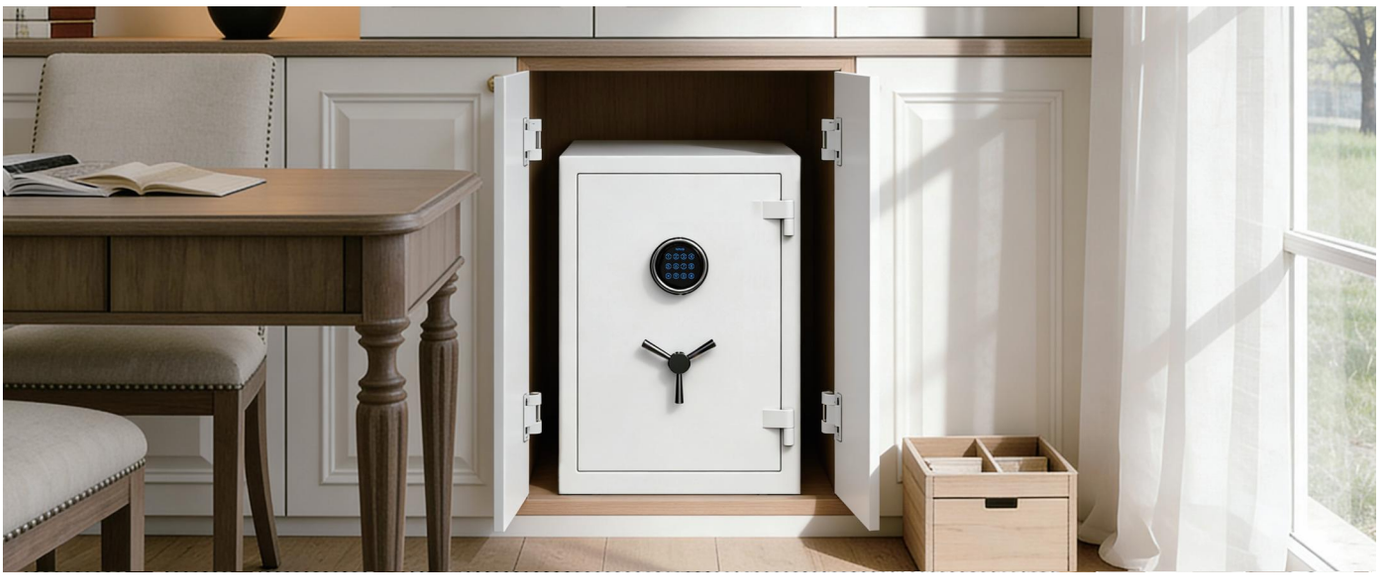
LAS VEGAS, Nevada – RPNB Safe, a manufacturer of pistol, home, fireproof, rifle, and gun safes, will exhibit at the 2027 SHOT Show, taking place January 19–22 at The Venetian Expo and Caesars Forum in Las Vegas. The company will showcase its latest line of biometric and fireproof safe solutions at booth 40741, designed for firearms dealers, retailers, law enforcement agencies, and home security professionals.

RPNB Safe offers a comprehensive portfolio of secure storage products, including biometric handgun safes, quick-access pistol safes, fireproof rifle safes, and home vaults. The brand's fireproof safes are compliant with the UL 72 standard and are tested to withstand temperatures up to 1200°F for 30 minutes. They feature 16mm heat-resistant fire boards and durable solid steel bolts. RPNB's biometric technology supports multiple users with fingerprint recognition, delivering rapid and reliable access for both home defense and professional applications.

"SHOT Show is the premier gathering for the shooting sports and security industry, and we are excited to return with our most advanced safe lineup yet," said Nicole. "Our focus at RPNB has always been on combining robust protection with effortless access.

This year, we are bringing new designs that address the evolving needs of our customers – from under-desk pistol safes that accommodate mounted red dots to large-capacity rifle safes with organized ammunition storage. We look forward to connecting with dealers and partners face-to-face in Las Vegas."

At booth 40741, RPNB Safe will feature hands-on demonstrations of its newest safe models, including biometric fingerprint entry, touch screen controls, and capacities from 0.3 to 2.1 cubic feet. The RPNB team will be available to discuss dealer pricing, distribution opportunities, and customized solutions for retail and agency clients.



The 2027 SHOT Show, owned by NSSF – the Firearm Industry Trade Association – brings together more than 2,500 exhibitors and tens of thousands of professional buyers worldwide. It is restricted to shooting, hunting, and outdoor trade professionals and commercial buyers and sellers of military, law enforcement, and tactical products and services.
