SWISS MADE. BUILT FOR THOSE WHO RELY ON IT.

B&T is a Swiss manufacturer of firearms, suppressors and accessories, directly representing operations based in Thun, Switzerland. For professional and civilian users alike, we build products defined by precision, reliability, and zero-compromise quality. Our catalog includes PCC's, rifles, SMGs, genuine SD platforms, suppressors, as well as optics and accessories… all developed with one goal: to perform when it matters most.

B&T is 100% Swiss owned, that independence shapes how we operate, our culture, and how we support our U.S. customer base. From design to production, every decision is made with quality and long-term partnership in mind, not short-term compromises.

We are pleased to confirm that our new Swiss owned B&T company fully launches on January 1, 2027 within the United States. At this moment, we are carefully selecting and establishing our 2027 dealer network. We are looking forward to hearing from potential partners who demonstrate our commitment to quality and service.
