Becker's Hospital Review Names 100 Infection Control Products to Know

CHICAGO (Jan. 22, 2018, 10 a.m. CDT) — Becker's Healthcare is pleased to release the "[100 Infection Control Products to Know | 2018](#)" list.

The products featured on this list cover hand hygiene, disinfectants, textiles and health technology designed to improve infection control and patient safety. Becker's Healthcare accepted nominations for this list and selected products that can help healthcare organizations provide safe and compliant patient care. The list highlights the innovative products and companies that are moving the needle forward for patient safety.

Becker's Hospital Review also published a version of this list in 2014.

The full list features individual profiles of all hospitals on the list.

The full list can be read here:

Note: This list is not an endorsement of any product or service mentioned on this list.

About *Becker's Hospital Review*

Becker's Hospital Review is a monthly publication offering up-to-date business and legal news and analysis relating to hospitals and health systems. Articles are geared toward high-level hospital leaders, and we work to provide valuable information, including hospital and health system news, best practices and legal guidance specifically for these decision-makers. Each issue of *Becker's Hospital Review* reaches more than 18,000 people, primarily acute care hospital CEOs, CFOs and CIOs.
