LAS VEGAS, Nev. - Jan.18th,2027 - Shenzhen Valueplus2 Electronics Co.,Ltd, a professional Rangefinder/ Binoculras/ Riflescopes manufacturer, presents its own hunting brand Wellray at the 2027 SHOT Show. Media, dealers and outdoor retailers are invited to visit Booth #43256 for live demos.

Wellray offers competitive wholesale pricing and flexible OEM/ODM services for North American distributors, outdoor shops and sporting goods retailers, backed by stable supply and reliable after-sales support.

“We aim to deliver dependable, high-value rangefinders and scopes to North American hunting and outdoor customers,” said Vincent Lee, Sales Director of Wellray. “We look forward to connecting with retailers and media partners at the show and exploring distribution partnerships.”

Media may obtain high-resolution images and spec sheets at the booth and schedule one-on-one demos.

About Wellray Brand

Wellray is a new generation brand of hunting gear tailor-made for young Americans. Its parent company, AIMTECH US INC, focusing on the research and development, production and sales of laser ranging products. The company has a number of patents in laser ranging technology, and its Wellray brand products mainly include phase laser rangefinder, pulse ranging telescope, laser ranging sensor, triangulation ranging radar, TOF radar and other products.

AIMTECH is committed to delivering a one-stop solution for new-generation, precise and intelligent outdoor distance measurement. Our products embody cutting-edge technology that aligns with the preferences of new-generation users, and incorporate AI algorithm innovations that make competitive-grade precision .

2 factories, 40+ R&D team, 300+ staffs, this is how we support our customer and stands out on market.
