

## Domio

Domio is a new way to bring music with you to the slopes, trails, streets, and parks. Using micro-vibration technology, Domio creates a 360 degree dome of audio around your head, while still keeping your ears free of obstruction.

### Key Features:

- Works with all helmets
- All-day battery life
- Bluetooth wireless
- Water-resistant and shockproof
- Simple one-button operation and volume dial

## Domio Plus

Utilizing the same micro-vibration technology, paired with a high quality, noise-cancelling mic, Domio Plus gives you the added ability to make and take calls from the device without ever having to take your phone out of your pocket, allowing you to stay focused on what's in front of you.

### Key Features:

All features of Domio, plus:

- Noise-cancelling microphone for phone communication
- Answer calls with a single button

## Hearshot

When mounted to the helmet, Hearshot gives the user true communication freedom. Allowing direct peer to peer communication for up to 12 units simultaneously, you will never be disconnected again.

### Key Features:

- Hands-free operation
- Full-duplex communication for up to 12 users
- Versatile use - works with any helmet
- Over 1100 yards in range (over 1km)
- 6-8 hr battery life
- Waterproof

Straight peer-to-peer communication without the need for a cell phone.

## Our Products

### Domio

Utilizing micro vibration technology, Domio turns your helmet into a 360 audio device, while keeping the ears free.

### Domio Plus

All the features of Domio, but with the added ability to make and take calls from the device from your mobile device.

### Hearshot

Multi-way radio communication so you can talk to your team no matter where you are.

## About Us

Bart Lipski, Co-CEO, Co-Founder

Sebastian Koper, Co-CEO, Co-Founder

Elevety was started by two lifelong friends with a passion for action sports and technology. After a kitesurfing trip to the Caribbean, the two friends realized there was something lacking from their experience. While wireless and wearable technologies have progressed considerably over the last decade, they have not fully arrived to the action sports and outdoor arena. That's where Elevety comes in - bringing the latest innovations in tech to the sports and outdoor world. Elevety - elevate your experience of sports through connectivity, music and control.
