NEW WAVE: SEASCAPE IN SUNRISE, DAWN AND DUSK FOR SUMMER 2016

Designer, artist and renowned stylist Abigail Edwards launches three new seafaring colour options for the celebrated nature-inspired 'Seascape' design.

"The sea is ever changing and there are so many subtle colours that alter depending on the time of day. Each hue delivers a different atmosphere, but all encapsulate the unique sentiment of a tempestuous sea with an arousing yet soothing influence."

Dusk, Dawn and Sunrise join the existing line-drawn wallpapers, Winter and Summer (all of which are printed in the UK with non-toxic water based ink). www.abigaileward.com

Abigail began her career studying Fine Art at Wimbledon School of Art in London and the École des Beaux-Arts in Paris, but it was whilst completing internships at art galleries in New York that a passion for interiors took over and she returned to London in 1999 to style shoots for magazines. With a love of texture and simplicity,

Abigail now styles and consults for a diverse range of editorial and commercial clients and launched her first interior collection in 2011 which is also heavily influenced by the humble beauty of nature.

Seascape **Sunrise** depicts metallic gold strokes on a plaster pink background, inspired by the rolling waves of a urbulent sea with the light from the rising sun reflecting on the water.
