

FOR IMMEDIATE RELEASE

LISA FAY DESIGN launches its first product the MOROCCAN PENDANT

Metro Detroit, Michigan - January 01, 2016

Lisa Fay Design makes their debut featuring the first product in their collection, the Moroccan Pendant.

"I love Moroccan detail, but I wanted to create an updated version" says co-founder Lisa Vongerichten. "The larger, simplified pattern is one element designed to achieve a more modern aesthetic."

Inspired from the beautiful intricacies of Moroccan detail and translated into a modern design of pattern and color. When lit, the Moroccan pendant casts a pattern of light and shadow creating a dramatic element of illumination. Each steel fixture is powder coated white with an optional hand-painted 8 multi-color striped side.

About the Company:

Lisa Fay Design is an emerging lighting design studio located in the metro Detroit area and was founded by husband and wife duo Lisa & Gary VonGerichten in 2012. They design light fixtures with a colorful and contemporary aesthetic. Currently they source out materials & manufacturers in North America to produce their products. Finishing processes such as painting, assembly, and packaging are done at their studio. If you'd like to know more about the company or have any questions please visit www.LisaFayDesign.com for more information.
