

# CHRISTOPHER SOLARDESIGN

original modern furniture · designed and built to last

## PRESS RELEASE - ICFF 2016

Christopher Solar Design is making its debut appearance at ICFF in New York City with the support and partnership of the Ontario Wood program (booth 1472). Christopher will be showing his new *Alpha* furniture collection.

### The Alpha Collection

Design: Christopher Solar

The *Alpha* collection combines modern, pared-down lines with palette of classic, durable materials including Ontario white oak, vegetable-tanned leather, and wool felt. The centerpiece of the collection is a lounge chair / ottoman set with seats woven from leather straps. Complementing these are a tall floor lamp and a side table. Subtle details and elegant proportions are carried throughout the collection.

### About Christopher Solar Design

Christopher Solar designs and builds furniture in his studio in Ottawa, Ontario, Canada. He has been producing custom work and limited-production designs since 2006. His work combines original forms, quality materials, and uncompromising craftsmanship.
