Test Your Cleaning IQ and Win

NASHVILLE — January 2018 — KYZEN cleaning experts have created the world's first Cleaning IQ Test to be introduced at the 2018 IPC APEX EXPO, scheduled to take place Feb. 27 - March 1, 2018 at the San Diego Convention Center in Ca. Inspired by KYZEN's commitment to industry education and technical support, it is easy to test your knowledge in Booth #3449 at the show. You may even win a reward for your skills. "KYZEN loves to make technical learning friendly, fun and efficient," said Sherry Stepp, Global Segment Leader for Electronic Manufacturing at KYZEN. "It is part of our commitment to constantly improving cleaning process performance through the convergence of Science and Care."

KYZEN provides a wide range of products and technical services that increase reliability and productivity for manufacturers around the world. APEX attendees will also discover why KYZEN's newly launched ANALYST Data Services is being called an industry breakthrough. It is the only product that delivers real-time access, traceability and advanced data analytics in a user-friendly customizable dashboard, complete with alerts. ANALYST Data Services is the most comprehensive data reporting platform available today and it is fully integrated with the KYZEN PCS.

You no longer need to be standing at the production line or manually logging data. ANALYST Data Services allow you to access your data, including historic trending data, from multiple production sites in one secure location. Quickly compare performance across production sites in Europe, North America and Asia.

To get the latest information about ANALYST Data Services, visit KYZEN in Booth #3449 at APEX or watch a short introduction video at www.AnalystDataServices.com.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications.
