## News Release

### **FOR IMMEDIATE RELEASE**

## **BTU to Highlight Award-winning Vacuum Reflow Oven for High-volume Manufacturing During IPC APEX Virtual EXPO**

NORTH BILLERICA, Mass., February 8, 2021 — BTU International, Inc., a leading supplier of advanced thermal processing equipment for the electronics manufacturing market, will participate in the 2021 IPC APEX Virtual EXPO, scheduled to take place March 9-11, 2021 online at [www.ipcapexexpo.org](http://www.ipcapexexpo.org). The company will highlight the PYRAMAX™ Vacuum reflow oven during the virtual event.

The PYRAMAX Vacuum reflow oven has been designed around requirements of large EMS/high-volume automotive customers. The unit is configured with 10 zones of closed-loop convection heating and a maximum production width of 18". Nitrogen atmosphere capable, the PYRAMAX Vacuum reflow oven offers a maximum process temperature of 350° C.

The PYRAMAX Vacuum reflow chamber was designed with high-volume manufacturing in mind. The chamber is designed to be opened wide for service without the use of tools. To learn more about how the PYRAMAX Vacuum reflow oven can reduce solder voids in your high-volume EMS line, visit [www.btu.com](http://www.btu.com).

### **About BTU International**

BTU International, a wholly owned subsidiary of Amtech Group (Nasdaq: ASYS), is a global supplier and technology leader of advanced thermal processing equipment in the electronics manufacturing market. BTU's high-performance reflow ovens are used in the production of SMT printed circuit board assemblies and in semiconductor packaging processes. BTU also specializes in precision controlled, high-temperature belt furnaces for a wide range of custom applications, such as brazing, direct bond copper (DBC), diffusion, sintering and advanced solar cell processing. BTU has operations in North Billerica, Massachusetts, and Shanghai, China, with direct sales and service in the U.S.A., Asia and Europe. Information about BTU International is available at [www.btu.com](http://www.btu.com).
