

Specialized in providing
metallographic laboratory
solutions

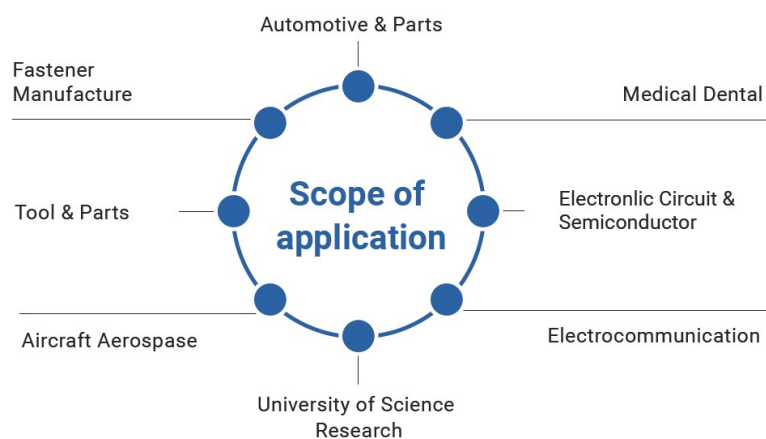

Metallographic machines for quality assurance and testing

Trooly (Suzhou) Technology Co., Ltd is a professional manufacturer and solutions provider in metallographic analysis field.

We have been focusing on the research and development, production and sales of metallographic equipment and consumables for over 18 years and we have independently developed a series of metallographic equipment and material.

Our equipment is suitable for a wide range of applications

Our grinder&polisher has both single-platen and double-disc type, with options for automatic or manual operation. We also offer large-scale cutting machines for handling big samples, as well as small-scale cutting machines for precision cutting. We have different mounting machines for cold or hot mounting.

Customer satisfaction is one of our key priorities. We provide a one-year warranty for all our machines, guaranteeing a seamless user experience. In the unlikely event of any issues, our dedicated customer support team is readily available to assist you.

In addition to our manufacturing capabilities, we also have our own laboratory. If you have any samples that require analysis or testing, we encourage you to send them to us. Our team of experts will carefully evaluate the material characteristics and requirements and provide you with tailored and satisfactory solutions.

Our company has been working closely with BYD, Volkswagen, Huawei, Gestamp, Siemens, Bosch, Panasonic, TOYOTA, and many other well-known companies for many years. We take great pride in our relationships with these factories and are committed to maintaining our partnerships for the long term. Our collaboration has been mutually beneficial, and we look forward to continuing to work together to achieve our shared goals.

At Trooly (Suzhou) Technology Co., Ltd, we understand the importance of building strong relationships with our clients. We are committed to providing you with exceptional products, reliable services, and technical support that exceeds your expectations. We look forward to the opportunity to serve you and contribute to your success.
