

FOR IMMEDIATE RELEASE

One-Stop Test and Inspection at the IPC APEX EXPO 2025

[December 10, 2025 – San Jose, CA] Test Research, Inc. (TRI) will join the IPC APEX EXPO 2025 held at Anaheim Convention Center on March 18 – 20, 2025. Visit TRI at booth #2905 to experience TRI's latest test and inspection solutions for the electronics manufacturing Industry.

TRI's lineup will include the enhanced 3D SPI [TR7007Q SII](#), and 3D AOI [TR7700Q SII](#) with a new optical configuration of 21MP Camera and 9.8um Resolution. TRI will also highlight the latest multi-angle 3D AOI, [TR7500QE Plus](#), for hidden solder joint defects. TRI will also showcase the High Speed 3D Inline Automated X-Ray Inspection [TR7600 SIII](#), and the 3D CT AXI [TR7600F3D SII](#) with dual-driven motor for increased precision. TRI's Optical Inspection Solutions are powered by AI-powered Algorithms and Metrology measurement capabilities.

The IPC APEX 2025 lineup also includes the Multi-core ICT [TR5001Q SII INLINE](#) with up to 4,096 test points and can handle boards of up to 510x510 mm in size.

The [AI-powered solutions](#) from TRI include the AI training tool, the AI Station, Verify Host, AI Smart Programming, and more. TRI solutions comply with the latest [Smart Factory](#) standards like the IPC-Hermes-9852, IPC-CFX, and IPC-DPMX.

Visit TRI's booth No. 2905 at IPC APEX 2025 to discover why the top EMS businesses chose TRI as their Test and Inspection Partner.
