

STARTEAM GLOBAL adopts Notion Systems' digital n.jet soldermask system

August 12, 2024 – Notion Systems GmbH and STARTEAM GLOBAL

Notion Systems GmbH, a leading manufacturer of inkjet printing systems for functional materials, is delighted to announce an order from STARTEAM GLOBAL for the n.jet solder resist system. The system is scheduled for installation in STARTEAM's new PCB factory in Flero, Italy. STARTEAM will utilize Notion's cutting-edge inkjet technology for digitally applying solder resist and legend.

Antonio Schmidt, SVP Sales & Marketing at Notion Systems, emphasizes the significance of this collaboration: "It is very important for us to work with multinational companies like STARTEAM as they have an international customer base that has a growing demand for our sustainable technology. As STARTEAM also has factories in China and Thailand, there is great potential for Notion to supply more systems to these factories".

Highlighting the rationale behind their selection, Martin Schneider, Chief Technology Officer of STARTEAM GLOBAL, states, "We chose Notion Systems because they offer a mature and easy-to-use technology and a very good support structure. In general, we see inkjet replacing several conventional processes and making PCB production more economical and ecological".

This order represents a significant investment by STARTEAM in advancing PCB production technology, marking a strategic step towards further enhancing product quality and manufacturing efficiency.

Notion Systems GmbH

Notion Systems GmbH is a leading supplier of industrial ink jet printing systems. The n.jet inkjet platform from Notion Systems is used to produce printed circuit boards, OLED & QLED displays, sensors and high-quality 3D parts. Notion Systems relies on decades of experience bringing precise inkjet systems to customers and scaling up digital printing processes for functional materials. Notion Systems is based in Schwetzingen close to Heidelberg - Germany and works together with leading sales and service organizations worldwide with focus on Asia, Europe and North America.
