

40 Years of Expertise

A New Generation of BGA Rework Stations

BOOTH 1742

PDR Rework shall be unveiling our new automated 'Assisted' Focused IR SMT/BGA rework system at Booth 1742 the Anaheim, California, USA Apex 18 – 20th March 2025 show.

Based on **40 years of knowledge**, customer feedback and experience of designing and manufacturing fantastic Focused IR SMT/BGA rework systems. We are excited to introduce the first of a new generation.

Also, at the event we will have representatives from the design and manufacturing team, from the UK, who will be available to discuss your current and future requirements.
