

[VIEW IMAGING](#) is a full-service digital retouching studio in Soho Manhattan catering to the finest photographers, editorial magazines, and advertising agencies, such as Peter Lindberg, Harper's Bazaar and Select NY. Without compromising on quality or personal touch, our production team and retouchers - made up of the industry's top digital imaging specialists - turn raw images into artful narratives.

Because many of our high-end clientele were struggling to channel the same artistic aesthetic through to their online imagery, View Imaging decided to spin-off its daughter company, [Vcom Digital](#).

Bringing the same editorial eye and elevated quality level to high-volume web imagery, [Vcom Digital's](#) ecommerce clients are appreciating the superior quality of the images, remarkable consistency of the results and uncanny turnaround times.

Clients such as Elle Magazine, Harper's Bazaar, Jessica Simpson, David's Bridal, Kimora Lee Simmons, Aveda, Estee Lauder, and La Mer—to name just a few, are pleased to have the View / Vcom umbrella at their disposal: delivering exceptional, around-the-clock personal attention and handling everything from editorial and advertising to e-commerce imagery for web.
