## OW Lee Introduces The Marin Collection

June 11, 2019 – Ontario, Calif. – OW Lee, a manufacturer of high-end outdoor furniture, fire pits, and accessories located in Ontario, Calif., announced today the introduction of their new Marin collection. Marin is an aluminum collection that will be available for the 2019/20 season.

The Marin collection takes inspiration from the Northern California coastal community of Marin County, located just north of San Francisco's Golden Gate Bridge. Taking cues from both natural elements as well as modern design, Marin exemplifies the relaxed yet sophisticated nature of the area.

"Marin is a versatile collection that compliments a variety of architectural styles," said Paul Rogers, Vice President of Product Development and Designer at O.W. Lee. "Marin can elevate the look of just about any backyard and I am very excited to see how this translates from the retail floor to consumers' homes."

Marin is a full-line collection that includes dining, deep seating and lounge options in both cushion and our patent pending Flex Comfort seating. Additionally, Marin cushioned deep seating features our Plush Comfort and Sytex Seating Systems, which creates a superior level of comfort. Marin features high quality 6061 alloy aluminum and high transfer efficiency powder-coated finishes. The Marin Collection is available in thirteen frame finishes, six Flex Comfort color options, and over 150 stock fabric choices.

OW Lee was founded in 1947 in Pasadena, California. They are the premier manufacturer of fine wrought iron and wrought aluminum outdoor furniture and fire pits. OW Lee manufactures heirloom quality products in Ontario, California and they are one of the few remaining companies in the outdoor furniture industry that still manufacture in the USA.
