

Hardi Expands its Offering, in Style

May 11, 2020

FOR IMMEDIATE RELEASE

Spec™ pays special attention to healthcare and behavioral health. From mental health and psychiatric facilities to hospitals, waiting rooms, and other healthcare settings, we've furnished countless environments with products that have safety at their core and warmth in their style.

The Hardi line, introduced three years ago, has grabbed the attention of some of the largest hospital systems in the country. With a beautiful aesthetic, this one-piece chair is a breeze to clean and extremely robust. The collection, designed by Mike Shields, includes a lounge and dining chair, rocker and stool.

This year, Spec introduces two new models – smaller scale children's, and adult size lounge club chairs.

"Both models are a result of the market needing quality and aesthetically-pleasing solutions for their spaces," says Chris Benjamin, Design Leader at Spec. "The Children's chair caters to Behavioral Health facilities to create comfortable and flexible family areas. The Club Chair creates a seamless transition between armrests and the back, reducing ligature risk. These are thoughtful designs driven by customer demand".

The Hardi Children's chair is shipping now. Hardi Club chair begins shipping on December 31, 2020.

Spec, a prominent contract furniture manufacturer, was established in 1991 out of a desire to bring a unique customer-oriented approach to the contract marketplace. The company provides strong designs that excel at meeting all core requirements, together with a huge array of options, choices, price points and scales so Spec customers can specify the best possible solution.
