

AirShelf Mount Applications:

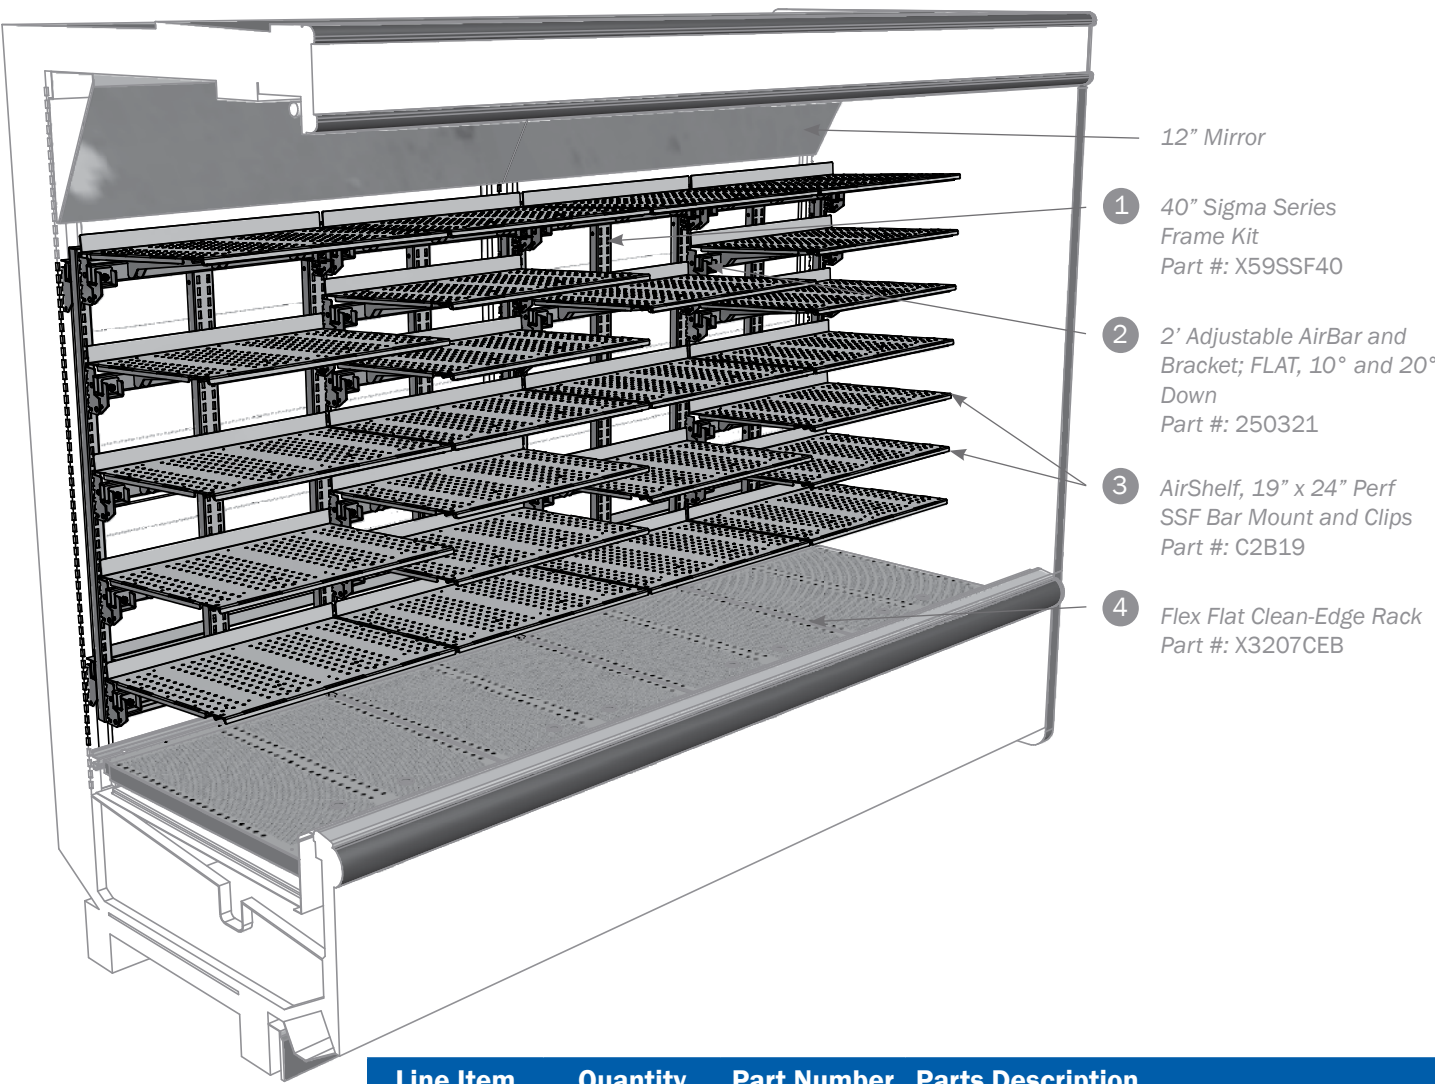

AirShelf™ Case Drawing

Sigma Series Frame Mount Application for 2’ AirShelf:

- Shown below with Sigma Series Frame where brackets attach to the standards in the back of the case, transforming case to 2’ standards rather than 4’ standards.
- Creates a multi-tiered 2’ increment, flexibility to stagger 2’ AirShelves both horizontally and vertically.
- Available with 2’ adjustable bar for 0°, 10°, 20° down

AirBar™ Application for 4’ AirShelf:

- AirBar System is a direct case mount, easiest to install and lightweight application for 4’ AirShelves.
- Compatible with entire AirBar™ System components: Adjustable Self Facers, Cross Merchandising Shelves, 4’ Rear Hanging ABS Bins, and AirBar Peg Hook System

| Line Item | Quantity | Part Number | Parts Description |

| 3 | 24 | C2B19 | AirShelf, 19" x 24" Perf SSF Bar Mount and Clips |
| 4 | 4 | X3207CEB | Flex Flat Clean-Edge Flat Rack |

AirFlo Benefits:

Increase Profits

Increase sales and profits by building massive displays with less inventory, and thus reducing shrink.

- Using less but looking like more! Our shelving and racking systems help manage inventory levels and turnover making it easier to rotate product, resulting in reduced shrink and increased profits.
- Our patented design eliminates bruising or indenting from wire “stringers”.

Increase Sales

Dramatically improving visual appearance

- Merchandisers are able to create high impact, abundant looking displays using up to 50% less inventory.
- Carlson AirFlo Merchandising Systems® anodized shelving and racking units will never rust, peel, chip or flake. Our unique dying technique physically becomes part of the aluminum at the molecular structure. It is not a coating, paint or layer that will peel, chip or flake off, as well as rust or corrode unlike other materials.
- By installing Carlson AirFlo’s Merchandising Systems, your fresh merchandisers are able to eliminate expensive, labor intensive case liners, providing a clean and sanitary environment.

Save Labor Costs

Improve sanitation with faster, easier cleaning that can be done more frequently with soap and water.

- Our shelving and racking units are specifically designed to put an end to the crevices where food debris collects.

Carlson AirFlo® Merchandising Systems is a national and international manufacturer of top-quality products including merchandising racks, case shelving, mobile carts and acrylic bins, all designed to enhance merchandising profiles. We help our customers succeed through collaboration, innovation, and commitment in sharing our global knowledge and experience. **Outshine. Outsell. Outperform.**

NEW AirShelf™

Nothing But Product

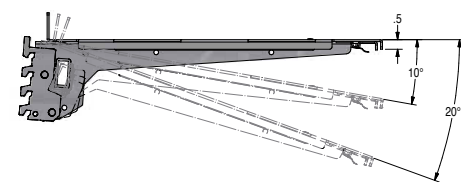

Carlson AirFlo® Merchandising Systems’ is pleased to introduce the NEW AirShelf™. A revolutionary, ultra sleek, ultra flexible, shelving system that becomes almost invisible. This sleek, clean profile allows the customer to see just your product, with no distractions or obstructions. Create gorgeous displays, attract more customers, sell more product. **Outshine. Outsell. Outperform.**

Benefits & Features:

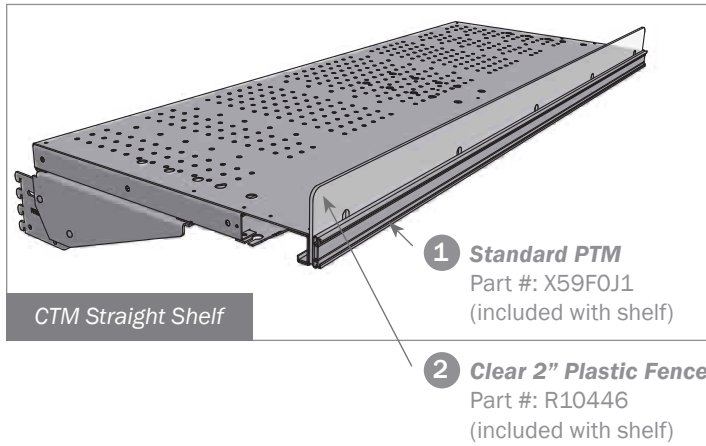

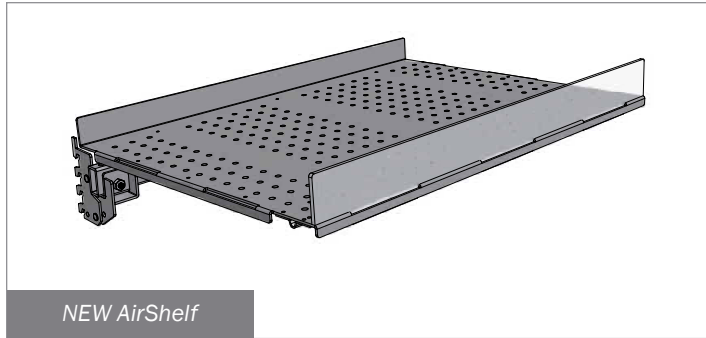

Nearly Invisible Yet Flexible Shelving System with AirShelf™

Create a stunning, effective display:

- **Increase Sales:** Provides high impact, unique category management showing just product. The AirShelf itself becomes almost invisible.
- **Maximize Merchandising Space:** Sleek, slim profile may increase your merchandising space by 20-25%. That is one additional shelf row per 4' section!
- **Abundant Presentations:** Abundant presentations allowing full view of product on the shelf with no obstructions or distractions. All your customers see is product.
- **Lightest Shelf Available:** Lightest shelf available on the market today. Designed with a 1/2" front thickness makes this shelf the thinnest reveal, lightest and easiest to install.
- **Merchandising Flexibility:** 2' Shelves allows the utmost flexibility to merchandise with no wasted space.
- **Super Slim LED:** Make your presentation shine with our NEW super slim LED lighting option available with AirShelf™.

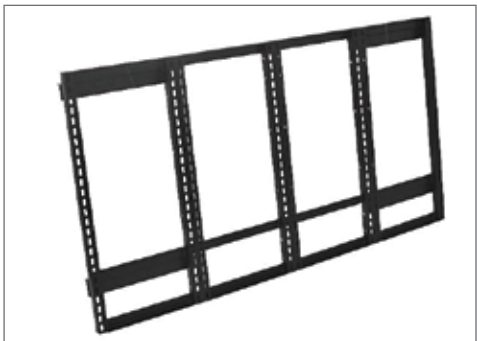

Maximize your retail space with AirShelf's sleek, slim profile 24"W x 19"D
