

## Under Shelf Lighting

### THE SMART SHELF LIGHTING SOLUTION

Light attracts attention and enhances your merchandise. With Quick Connect, you'll find a clean, consistent lighting system that is flexible, versatile and discrete. Based on a "plug and play" system, Quick Connect easily retrofits to existing fixtures and ensures consistent light output on runs up to 28 linear feet. Plus, it's simple to rearrange shelves—no electrician required!

*"Lighting supports the retailer's desired image and works in concert with other design components to promote sales."*

*IESNA Lighting Handbook, July 2000*
