

SIMPLE and Affordable Digital Menu Board

\$4499⁰⁰

Tebo Design and Fixture, after years of listening to America's independent retailer has developed a Digital Menu Board system designed to drive sales at a very affordable price. The complete unit includes 1 - 55" screen, AOPEN signage player, software and support. Once installed your marketing folks can control screens in single and multiple stores from a central point, and store personnel can make on the fly changes from a tablet in store.

"Solution-in-a-box" Design:

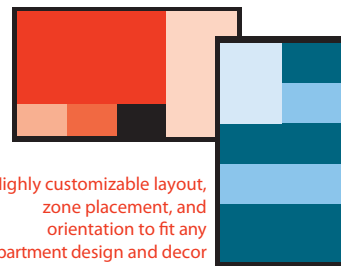

- AOPEN digital signage player with powerful software to schedule and manage your menu offerings.
- 1 commercial grade 55" digital screens with 3 year warranty.
- Two 1 hour web based training classes with 6 months of (M-F 8am -5 pm) e-mail technical/training support.
- Comes with all hardware, mounts and cables.

Powerful Scheduling & Remote Management:

- Highly scalable solution; control one location or hundreds of store locations through an easy to use web based interface.
- Remotely schedule content and system functions (auto power on/off) through any browser
- Dayparting menu offerings and target time-based promotions.

Multiple Menu Board Options & Templates:

- Use the prebuilt templates or create your own layout and design
- Supports landscape and portrait layouts
- Use your own images, videos, or flash content

Highly customizable layout, zone placement, and orientation to fit any department design and decor
