

Your one stop time & attendance solution.

Founded in 2006, **Time Rack**[®] is a leading web-based proactive time clock solutions provider that offers a robust and customizable program for meeting the unique needs of any organization. Our solutions provide scalable benefits without the massive price tag, including advanced functionality, enhanced productivity and cutting-edge technology.

Time & Attendance

Our web-based Time & Attendance system was developed with features that streamline time & attendance collection, management and processing for companies.

Human Resources

Our HR Module makes it easier to update employee data for accurate record keeping within the same platform as your time & attendance.

Our **Time Rack**[®] software keeps an audit trail to automatically identify any changes made to employee information and time cards. Plus, **Time Rack**[®] is compliant with SSAE 16 audit standards.

Our Verticals

Our clients mean everything to us. Come see for yourself.
