

Red Wooden Flag was cofounded by Vlada Soshkina and Polina Doroshenko in February 2014 to showcase their individual and collaborative work.

RWF is (или They formed) a multidisciplinary studio that focuses on illustration, book design, and small production pieces. On this show, RWF will exhibit their line of greeting cards, notebooks, games, wrapping papers, small pillows, and tote bags. RDW prints using ecological colors and recycling paper. We do care about the environment, and we take our production very seriously.
