

PURE LIFE with blomus innovations for Ambiente 2016

This year blomus will once again present functional products in their inimitable design at Ambiente 2016. These will include innovative products from the four ranges: PURE GARDEN, PURE HOME, PURE SPA and PURE TASTE, which exude pure elegance and are full of clever ideas.

PURE GARDEN

Novelties for outdoors

Nothing occupies the Germans as much as the weather. Thanks to the **GALLO** weathercock by blomus, at least we now know which way the wind is blowing. The bird, made of stainless steel, is attached to a wooden stick and turns, according to the direction of the wind, on its own axis using ball-bearings. It is a real eye catcher on a terrace or in a flower bed.

Real birds can also find a home with that special something at blomus. They can perch on the stainless steel bar of the **AVIA** feeding station and feast on seeds through the opening. The feed is contained in a cylinder made of acrylic glass, which can be filled from the top. Thanks to the funnel-shaped end of the cylinder, the feed passes automatically through an opening at the bottom. A plastic lid protects the feed from moisture.

GALLO weathercock, H: 140 cm, €99.95

AVIA feeding station, H: 143 cm, Ø 7 cm, €79.95

In trend – concrete

Whether indoors or out – concrete is the absolute in-trend material for living accessories for 2016. blomus has taken up this trend with their **FARO** storm lanterns, in their signature understated design. This cool material has been combined with satin glass to produce soft and atmospheric candle light. The candle holders are available in a set of three or as individual tea-light holders with a wider diameter.

FARO storm lanterns, set of three, H:21 cm, Ø 5 cm, from €39.95

FARO storm lantern, H: 19 cm, Ø 7 cm, from €19.95

PURE TASTE

Functional kitchen helpers

In the PURE TASTE range, the focus is on function for the new additions. The **LOOP** kitchen roll holder, for example, is particularly stable making it easy to tear off paper when you need it. The stainless steel base is weighted and the rubber underside ensures that it grips the table or worktop. The roll does not slip off the rod thanks to two springs holding it in place. This means that you can tear off a sheet of kitchen paper with one hand, without the holder tipping over. The paper end is also fixed by a stainless steel arm, which has a plastic cover on the upper end so that the paper does not rip.

Two-in-one – that's what you get with the **PANEA** bread bin. The body, made of stainless steel, keeps baked goods fresh and dry, thanks to the ventilation slits. And the lid, made of soft plastic, serves as a cutting board when open. As it is magnetic along the sides, it can be removed easily for cleaning.

2/5

Stylish enjoyment is guaranteed with the **NERO** insulated glasses. These double layered glasses are available in different sizes and in a set of two. They are perfect for coffee creations from espresso to latte macchiato. Ice cold desserts, such as sorbets, or piping hot soups can also be presented comfortably without burning or freezing your hands, thanks to this material.

Fruit and vegetables can be aesthetically arranged in the **ESTRA** baskets. Their natural shape and stainless steel finish make these accessories a real eye catcher in the kitchen or dining room. They are available in three different sizes.

LOOP kitchen roll holder, H: 34 cm, Ø 15 cm, €34.95

PANEA bread bin, L: 42 cm, W: 26 cm, H: 15 cm, €99.95

NERO insulated glasses, H: 7-14 cm, Ø 6-8 cm, from €14.95

ESTRA stainless steel baskets (3 sizes), H: 5.5-20 cm, Ø 25-37 cm, from €44.95

PURE SPA

Stylish bathroom ideas

Everything in its place, even in the shower – this is now possible with the **NEXIO** shower basket. The basket can be attached without drilling, with the 2Fix system, or screwed on as normal. Then you have everything you need for showering within easy reach, from shower gel to the massage mitten. This stainless steel basket contains a plastic tray that can be removed and cleaned. But the highlight is the wide elastic band inside the basket that stops smaller items from falling over, such as your toothbrush or upturned shampoo bottle. The basket is available in two different sizes.

blomus has also come up with a wonderful helper for cleaning the shower: the **LAVEA** floor wiper is especially suited to wet rooms and large floor-level showers. Thanks to the replaceable rubber squeegee, the water on the floor can be quickly removed.

The **VISTA** cosmetic mirror gives added joy to make-up time and skin care. This slightly curved mirror is attached to its stand using a magnetic ball and socket joint, which means that it can be positioned at any angle and even removed. With its fivefold magnification this mirror is the perfect helper for facial care and applying make-up.

The **NEXIO** guest towel holder is striking thanks to its sleek design. The holder's minimalist appearance has been created using compact stainless steel, giving it the necessary stability to beautifully present small hand towels.

In addition to the new products for the bathroom, blomus is also expanding its successful **AREO** series this year with a wide range of products, from soap dishes and toothbrush glass holders that can be mounted on the wall, to various towel rails and hooks, and a glass shelf.

NEXIO shower basket, H: 9 cm, W: 25/34 cm, D: 8/12 cm from €79.95

LAVEA floor wiper, H: 122 cm, W: 36 cm, €79.95

VISTA cosmetic mirror, H: 29 cm, W: 11 cm, D: 11 cm, €64.95

NEXIO guest towel holder, H: 47 cm, W: 5 cm, D: 8 cm, €89.95

PURE HOME

Design for your home

The **CANDEA** candelabras, in heights of 14, 18 and 22 centimetres, decorate any table perfectly. Made of stainless steel and dark polystone, they look particularly elegant with long tapered candles.

The **CRONO** radio-controlled clock in black and white keeps you up with the times. Set to central European time, it reliably tells you exactly what time it is. One striking feature is the red second hand, which gives this timepiece that special something.

CANDEA candelabra, H: 14-22 cm, from €22.50

CRONO radio-controlled clock, Ø 31 cm, €79.95

PURE LIFE with blomus:

In almost all of blomus products pure stainless steel provides both the inspiration and the fascination. This is because this solid, high-quality metal is often the starting point for new blomus product ideas in the four categories **PURE GARDEN, PURE HOME, PURE SPA and PURE TASTE.**
