Starborn Creations, Inc.

The best at Hong Kong show: Russian view

A true stand out among the creations that is immediately noticed by specialists and buyers from Russia and post-Soviet countries at the Hong Kong International Jewelry Show is the work of US based company, Starborn Creations. The wide range of unique and exciting jewelry coupled with an array of natural stones is an exceptional mix for even the most meticulous of tastes.

Starborn Creations, Inc. is based in the Red Rock splendor of Sedona, Arizona USA with design offices in Sedona, Arizona and on the Indonesian Island of Bali. Starborn Creations was founded in 1996 by German born jeweler Arne Christophersen, who together with his wife Anahi designs and supervises Starborn's Jewelry Creations. Arne and his highly trained Staff are continually inspired by the natural beauty of Fossils, Gemstones and Minerals.

Arne says: «We are using a wide range of natural gems to create exciting jewelry, buying rough gemstones and minerals directly from mines and traveling extensively to many remote parts of the world during the year.

Starborn Creations specializes in designing affordable handmade One-of-a-Kind Gemstone Jewelry, which allows us to utilize very rare and unusual materials as well as free form shapes, for instance our more celestial designs will include valuable meteorites, tektites and moldavites to offer our customers truly unique Starborn™ Jewelry Art. We hope our jewelry will show the inherent beauty and harmony of natural gemstones and let them shine in a different context and light, calling to mind the preciousness of our natural environment and existence».

Arne Christophersen, STARBORN CREATIONS President, and Sales Manager Dawnielle Tehama presented their products at the press-breakfast
