

BedHead

pajamas

*Summer time,
Summer time!*

Over at Bedhead, we decided to go all out and design the best summer collection ever. We are very happy with the results and went so far as to photograph it beautifully for full impact. Choose from a variety of lightweight fabrics including summer favorites, voile and poplin, printed with the sophisticated whimsy we've come to be known for. We are so happy to bring back our Liberty in all its' glory, one beauty for each delivery.

Late last year I started collaborating with the runway artist, Katie Rodgers. She has been commissioned by the likes of Cartier, Balenciaga, Harper's Bazaar and Lancome, among others. We started to conceptualize together, incorporating her great drawing and color talents. Here we have the must have" Lipstick Print" as well as the" Belle of the Ball". Already a hit with a variety of taste makers. We will be tapping into her fan base to further spread the news of our inspired collaboration.

I hope you enjoy the latest artistic offerings.

Best wishes,

Renee Claire
