GMC Toy' s Field Inc. is Japanese manufacturer of design items and miscellaneous goods based in Tokyo, Japan.

We created silicone made pouches (our main products) under the brand name of p+g design.

Original item "POCHI" (silicone made round shape pouch with a clasp) became very popular in the world by its uniqueness and bright colors. Our items are sold more than 40 countries.

Silicone is resistant to heat and water, so our products are suitable for outdoor use, beach, pool and gym as well as city use.

Our items are sold at famous museum shops / design stores / leading department stores / stationery shops / book stores / electronics stores / drugstore / beauty salon / etc.

Suitable for various selling opportunities due to its versatility.

Please check our complete collection at official website.

<http://www.pgdesign.com/>

All our products are designed by our in-company designers in Tokyo, Japan and well-manufactured in China.

We do OEM. (1C~4C printing on our items / making new items (We have lot of experience to work with the factories specialized in sundry goods.))

As originator, we keep creating various types of silicone pouches and lifestyle items.

Recently animal motif pouches became hit items.

Our colorful and fun silicone items bring you (even people around you) happiness and fun in daily life.
