

PRESS RELEASE

Textile designer Melissa Bamber creates covetable décor for home, work and social spaces.

In 2016, she will debut her collection of pillows, clutches and wallpapers featuring print designs that challenge the conventional. Inspired by an eclectic mix of vintage and contemporary themes, every piece tells a story.

With a focus on the unexpected, a duality of components is used within each design. Classic patterns are given an unexpected twist, juxtaposed to demand a second look. Each design is hand-drawn and silkscreened by the designer and her team in their Chelsea studio. Colors are mixed by eye and matched to locally-sourced fabrics and trims. All pillows and pouches are hand made in New York City.

Born in London and raised in the British school of design, downtown-based Melissa Bamber creates pieces that transform rooms and capture attention.
