

FOR IMMEDIATE RELEASE:

Extended Travel for Gun Barrel Reaming Machine

MARSHALL, Mo. – December 1, 2018 – The DeHoff G560-R2 is a twin-spindle pull-reaming machine used to manufacture gun barrels. It has an extended slide travel of 60 inches (1524 mm), which is 25% more than the previous model offered by the company. It can accommodate barrel sizes from 17 to 50 caliber, with automated loading/unloading of barrels.

The G560-R2 is part of a turnkey package of gun barrel manufacturing equipment offered by DeHoff, including machines for gundrilling, pull-reaming, button rifling, cut rifling, as well as tooling, heat treat ovens, and gaging equipment. DeHoff machines are built-to-order by Kays Engineering in their Marshall, Missouri facility. To learn more please visit us at HOUSTEX 2017 in Booth #2907, or visit us online at www.kays-dehoff.com/dehoff/gun-barrel.
