

COLD WEATHER AVIATION SYSTEM (CWAS) FLIGHT BOOTS

Built with Globe's unique footwear construction for remarkable flexibility, the CWAS boot from Propel LLC is specially designed for the United States Air Force for performance in extreme cold weather.

- COMBAT OPERATIONS BOOT
- CERTIFIED SAFE TO FLY BY UNITED STATES AIR FORCE
- FLAME-RESISTANT LEATHER
- WATERPROOF GORE® CROSSTECH® FOOTWEAR FABRIC
- 900G INSULATION
- COMPOSITE SAFETY TOE CAP
- VIBRAM® FIRE AND ICE OUTSOLE
- EXTREME COLD WEATHER APPROVED
- BERRY COMPLIANT

FEATURES

- **FLAME-RESISTANT, WATER-RESISTANT HEAVY-DUTY LEATHER.** Specially softened tumbled leather in high-flex areas to move with you.
- **GORE® CROSSTECH® FOOTWEAR FABRIC.** A full-height bootie liner made from a package of Omaha lining fabric, 300g insulation, and GORE® CROSSTECH® moisture barrier provides protection unmatched by any other waterproof, breathable barrier.
- **KEVLAR® BLEND INSULATION SHIELD.** Three layers of KEVLAR® blend batting protects the GORE® CROSSTECH® moisture barrier, provides cut resistance, and adds thermal protection.
- **COMPOSITE HEEL COUNTER.** Individually molded to fit each size perfectly.
- **COMPOSITE SHANK.** Lighter than steel, doesn't transmit heat or cold, springs back to shape better.
- **COMPOSITE PUNCTURE PROTECTION.** Far more flexible than a steel plate and doesn't transmit heat or cold.
- **COMPOSITE SAFETY TOE CAP.** Lighter than steel and doesn't transmit heat or cold.
- **DUAL-DENSITY ENHANCED 3D MOLDED FOOTBED.** Dual-density footbed is contoured to cradle and cushion the bottom of your feet and to provide arch support. Urethane foam bottom layer provides durable cushioning while a micro-cellular open-cell foam top layer delivers cool, all-day comfort. Moisture-wicking and anti-microbial fabric top pulls moisture away from your feet.
- **VIBRAM® FIRE AND ICE CONTOURED CUP OUTSOLE.** Molded outsole wraps onto the leather upper for athletic shoe performance. Flame, abrasion, oil, acid, and slip-resistant compound engineered for high traction and durability, even during prolonged exposure to extremes of heat and cold.
- **SLIP-RESISTANT TREAD.** Siping – thin slits cut into flat areas across the sole – opens up when flexed to provide additional traction on water and ice. Self-cleaning lugs and omnidirectional tread pattern designed for superior performance in all terrains and when working on ladders.
- **3D COMPOSITE LASTING BOARD.** Lasted to boot uppers with a built-in flex zone in the forefoot and a torsionally stable heel. Works together with the footbed to conform to your foot's shape.
- **ATHLETIC FOOTWEAR CONSTRUCTION.** Two-part cross-linking adhesive bonds outsoles to the upper. Without stiff welts and ribbed mid-soles, this attachment process is far more flexible.

STYLES & SIZES

- **A201030 Men's:** Full Sizes 5-18 and Half Sizes 5½-15½ in Narrow, Medium, Wide, and X-Wide widths.
- **A20103W Women's:** Full Sizes 5-12 and Half Sizes 5½-11½ in Narrow, Medium, Wide, and X-Wide widths.

Certified to ASTM F 2413-11 Impact and Compression.
Berry compliant.
