

Shen Ao Multifunction Shovel

Model # DJSV-DG

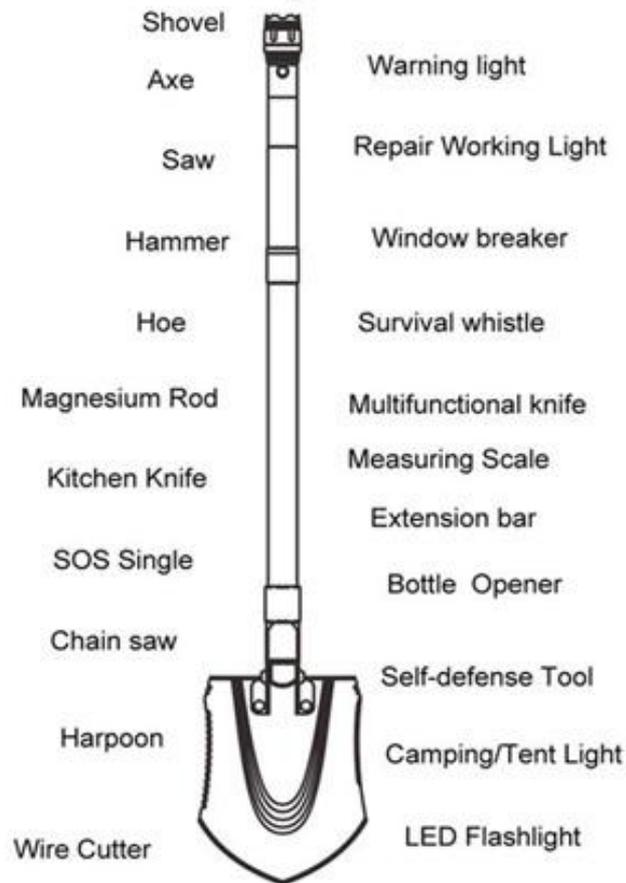

Shovel Structure

Major Functions

Components

Shovel Head

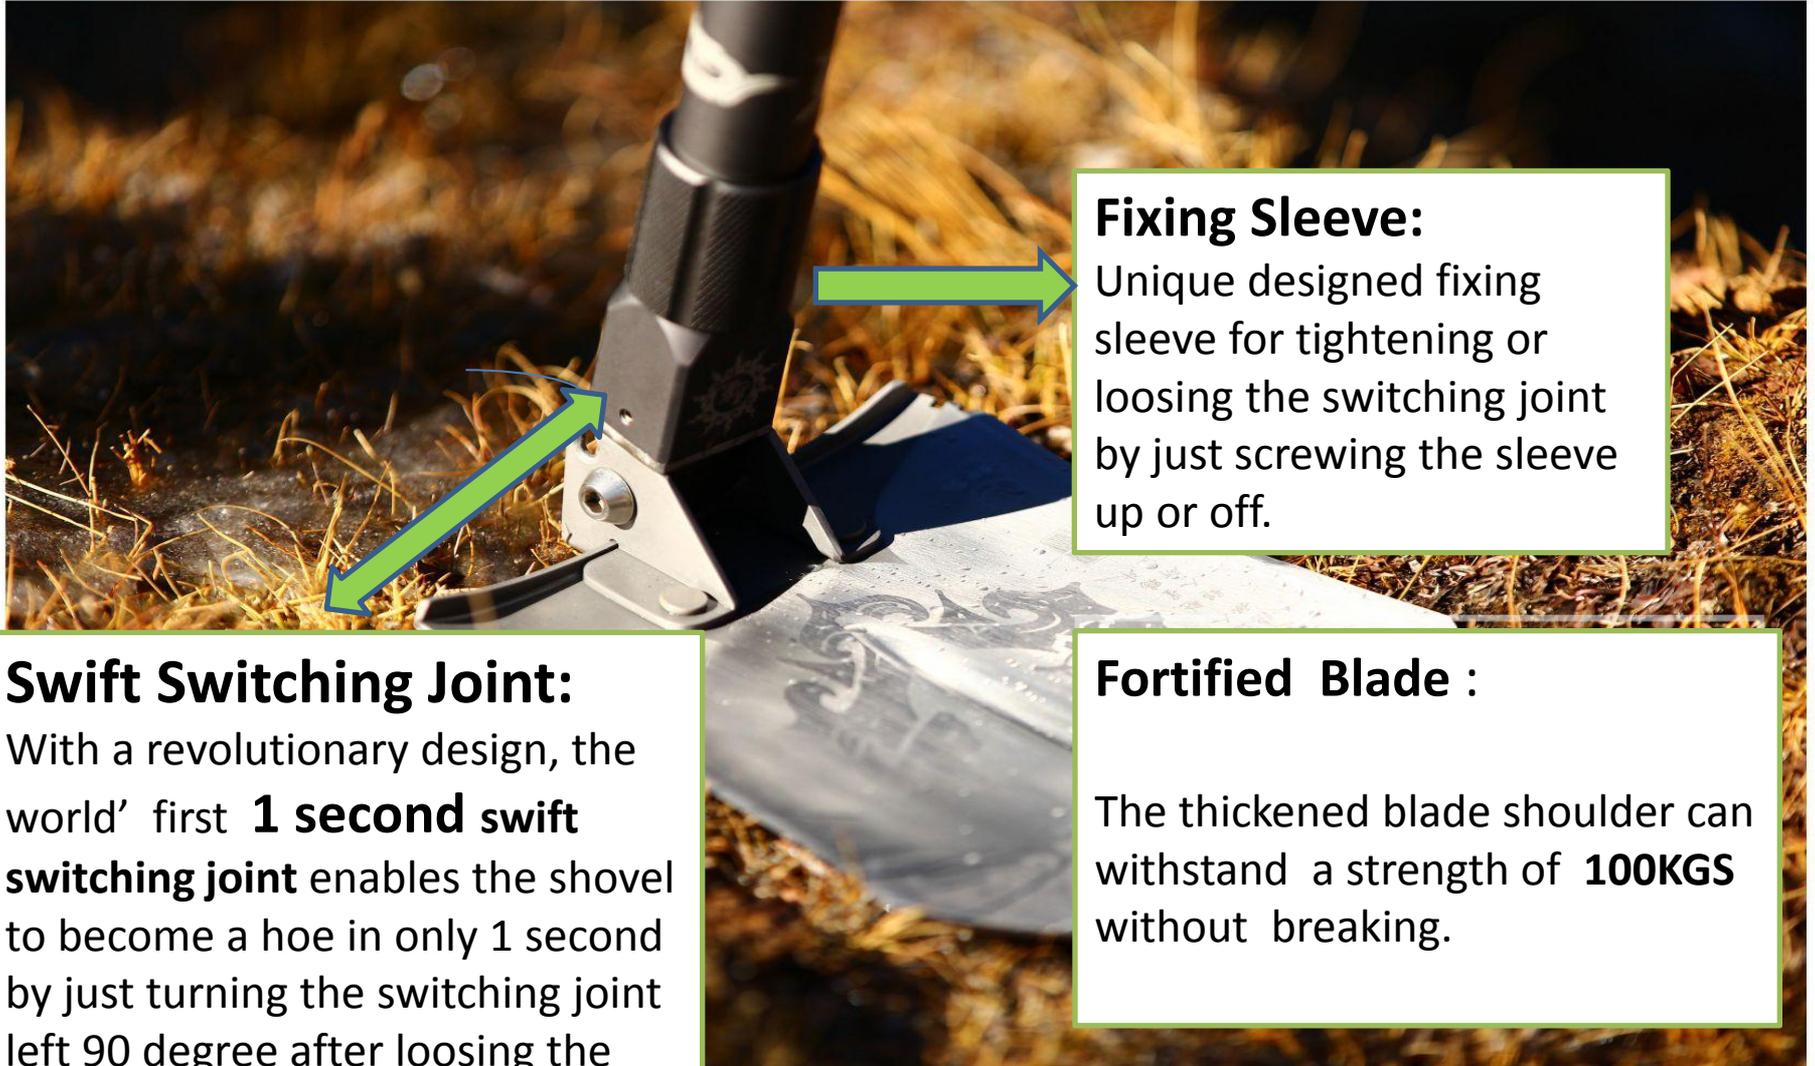

■ Material

Imported hi-carbon stainless steel

Hardness:HRC50-52

Tensile strength :Mpa≥735

Limit standard:15T

Fixing Sleeve:

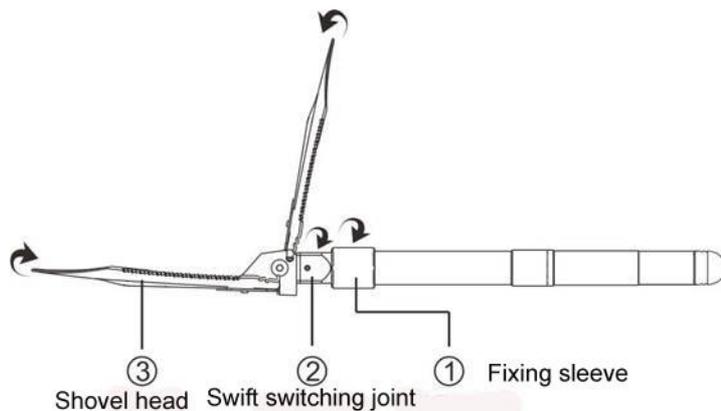

Unique designed fixing sleeve for tightening or loosening the switching joint by just screwing the sleeve up or off.

Swift Switching Joint:

With a revolutionary design, the world' first **1 second swift switching joint** enables the shovel to become a hoe in only 1 second by just turning the switching joint left 90 degree after loosening the fixing sleeve.

Fortified Blade :

The thickened blade shoulder can withstand a strength of **100KGS** without breaking.

Operation Illustration

Unscrewing the swift switching joint and fixing sleeve by turning it left.

Turning the shovel head at 90 degree

Swift switching joint will rebound automatically, screwing the fixing sleeve right and make it tight.

Handle

The handle of shovel is made of aluminum alloy for airplanes. The surface is treated by anodic oxidation technology. Besides, It is processed by CNC digital machine that makes it reach a very high level of integration and stability.

Handle diameter is 36mm with a tensile strength of as high as Mpa350!

Outdoor knife

■ Material

Imported hi-carbon steel
Hardness: RHC55

■ Functions

For peeling, scaling fish,
cutting and opening bottle.

End handle

■ Material

Aircraft Aluminum

Handle diameter: 26 mm

Tensile strength: Mpa350

**With detachable whistle&magnesium fire
starter in the end handle**

Multifunctional super flashlight

Magnet end

Can be attracted on iron products for lighting

Features:

- Completely waterproof
- Quick head dispelling design
- LED power level display
- Emergency phone charger

Inside USB
Socket

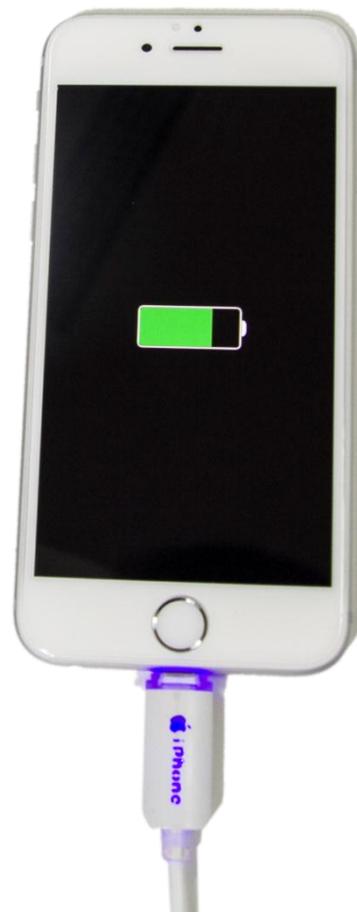

Quick heat dispelling design

Power level display

Metal switch button

Emergency phone charger

Inside of the torch, there is a 18650 battery (3.7V, 2200mAh). Can be used to charge your mobile phone under emergency situation.

Multifunction Flashlight

Four mode: Glare, dim light, blinker and SOS.
With white lampshade on it could be used as camping light, survival rescuing light, and warning light while combined with the shovel, etc.

Diameter: 40mm

Length: 245mm

Weight: 300g including battery.

Max range: 200m

Light source: CREE high power beads imported from USA.

Luminance: 320lm

Power source: 1 piece, 18650 (3.7V 2200mAh)

Shell material: Aerial Aluminum Alloy Surface

Treatment: Hard oxidation

Lens material: Imported PMMA

Battery working time: 4.5-15 hours

Waterproof grade: IPX7

Special instruction:

The flashlight will turn into weak light mode and then turn off automatically to remind you that it is running out of power. This is to protect the battery from being overused and to prolong the life span of the battery.

ISPO Award Chain Saw

- **Material:** Made of imported 440 stainless steel
- **Functions:** For cutting wood, plastic and bamboo etc. for camping outdoors.

Breaking window under emergency situation

Using the end handle of the shovel as a applying force rod to help disassemble the car tire.

With red lampshade, the flashlight connected on the shovel can be used as a warning light .

With the magnet end on the flashlight, it can be used as a working light when you need repair your car in the night.

Turing the flashlight mode into SOS, it can be used to send SOS signal.

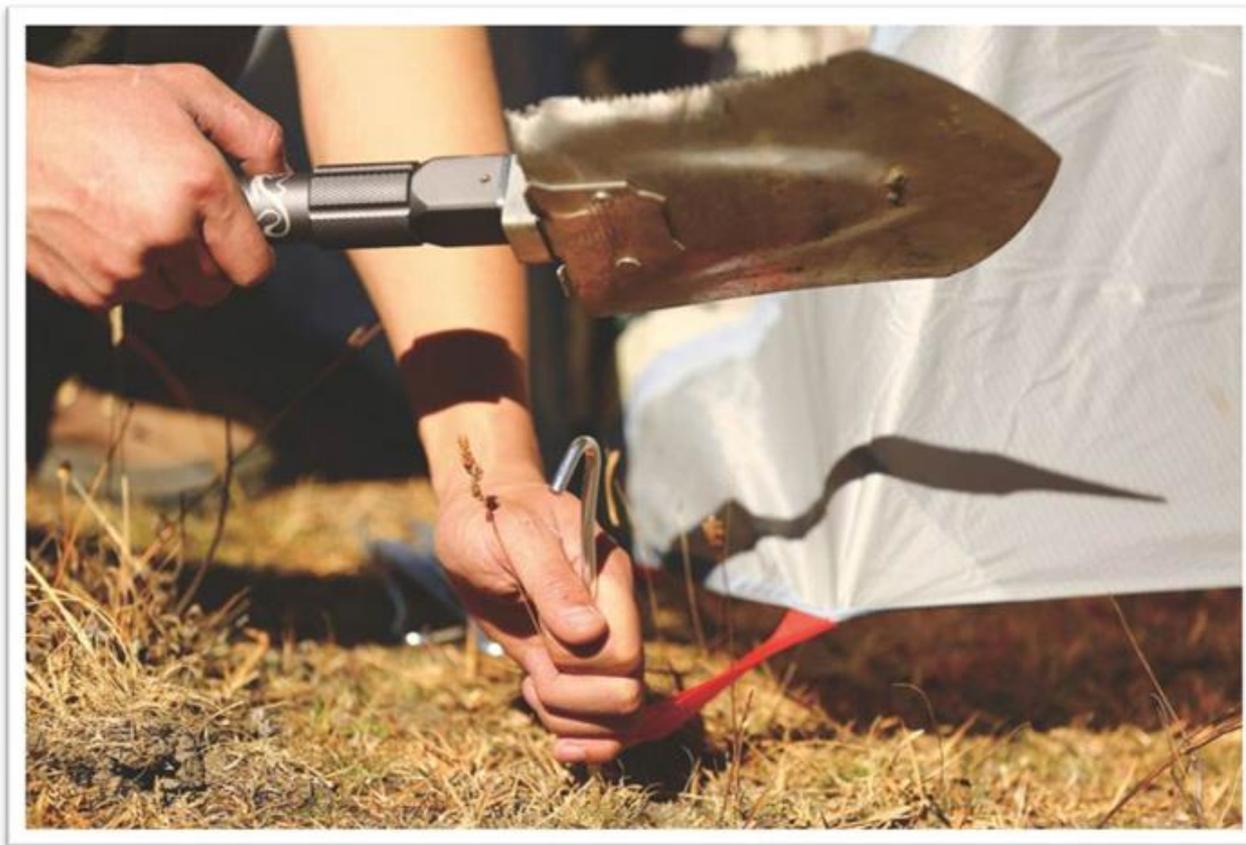

Using the shovel to break the ice field so that you can drive your car safely.

With the unique connecting structure, you can turn this tool into a shovel or hoe without any difficult.

Chopping wood

As a hammer

Wire cutter

You can use the knife inside of the shovel handle to scale fish and open beer bottle.

Whistle

The magnesium rod inside of the end handle can be used as fire starter

Using the shovel head as a kitchen knife

Ruler

As hook

Chain saw, cutting water pipe, bamboo and wood.
