# ABOUT US

Delta Kayaks is the culmination of over 30 years of thermoforming and paddle sports industry knowledge. From the outset, our focus has simply been to build the best thermoformed kayaks we can build. Through innovation and design we have created a complete line of outstanding kayaks that will appeal to paddling enthusiasts of every level. From the brilliant shine of the Solarkote™ finish to the innovative deck and cockpit outfitting, our commitment to quality and value is evident in every kayak we build. Whether new to the sport or a seasoned paddler, you can find your fit in a Delta Kayak.

## BETTER BY DESIGN

Delta makes choosing the right kayak easy. As avid paddlers we know that fit, comfort and performance are vital to experiencing the best that kayaking has to offer. All Delta Kayaks feature a long waterline and upswept bow for an efficient dry ride.

Optimizing your fit and comfort is quick and easy with the Delta multi positional sliding seat system, Seadog™ foot pedals and integrated thigh braces that are standard in all models. Deck fittings are recessed and hatches flush-mounted for a sleek look and no-sag design. Bow and stern hatches are large and provide easy access into full volume dry storage compartments that are sealed by watertight flanged bulkheads. The advanced thermoform construction of our kayaks provides better rigidity and far less weight with durability that surpasses fibreglass.

## TECHNOLOGY

### ADVANCED THERMOFORM CONSTRUCTION

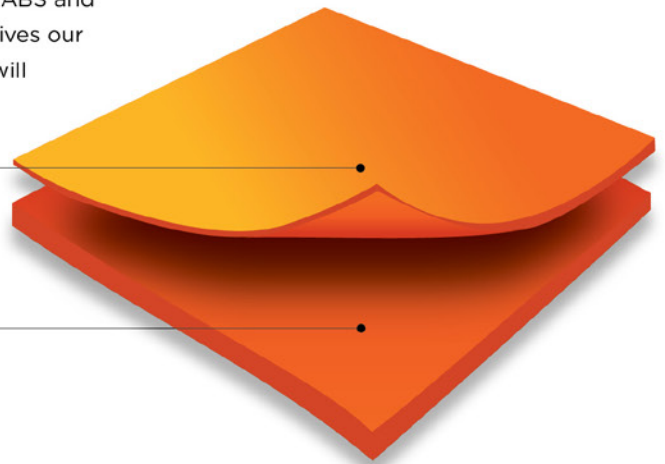

Delta Kayaks are moulded from highly specialized thermoplastic materials. The kayak's hull and deck are composed of a proprietary blend of ABS and Acrylic, extruded as one solid material. This lightweight material gives our boats the ultimate protection against fading and weathering and will provide many years of virtually maintenance-free use.

#### **SOLARKOTE™ EXTERIOR LAYER**

Offers outstanding abrasion and UV resistance for long lasting vibrant colours and a high lustre low friction finish.

#### **ABS SECONDARY LAYER**

Provides high impact resistance, rigidity and a smooth interior finish.

# ADVENTURE REC

INSPIRING STABILITY. UNSURPASSED ENJOYMENT.

Enjoy ultralight portability and unparalleled tracking, speed and stability offered by the proprietary hybrid catamaran hull design of Delta's Adventure Rec series. Available in sit in or sit-on-top models, they are the perfect choice for novice to enthusiast paddlers, anglers or yacht owners looking for a lightweight kayak that offers ample storage options, ease of paddling and great performance.

## CATEGORY

### INTEGRATED CARRY HANDLES

Molded into the bow and stern of the kayaks offering comfortable hand position and a sleek look.

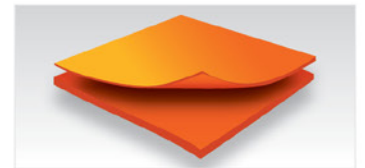

### PERSONALIZED FIT

Personalize your fit with our feature rich, multi-position Contour II Seat System and adjustable High-Back SOT seat. They help provide advanced support, cushioning, drainage and airflow.

### HYBRID CAT HULL

Provides excellent stability, handling and manoeuvrability in an ultralight design.

### THERMOFORM TECHNOLOGY

Durable, lightweight thermoform construction provides high abrasion and impact resistance coupled with superior UV protection so your kayak looks 'like-new' for years to come.

# ADVENTURE REC KAYAKS

## DELTA 10

This lightweight 10 footer brings a whole new level of performance to the world of recreational kayaks. With its catamaran style hull, the Delta 10 clips along with remarkable speed and agility while maintaining a high degree of stability without the excessive beam of most recreational kayaks. It excels as a platform for fishing and photography and its compact size and light weight makes it an ideal choice to store on the deck of larger pleasure craft. It features an under-deck storage pod, a large rear storage hatch with bulkhead and a multi-position Contour II Seat System offering plenty of comfort and adjustability for all the family to enjoy.

**2016 FEATURES:** Contour II Seat System, Dual Density Soft Grip Handles, SeaDog Low Profile Footbraces

## DELTA CAT 10.5

With the Delta Cat 10.5 SOT kayak you'll never want to be away from the water. Its unique catamaran style hull provides great stability, tracking and hull speed making it a breeze to paddle on lakes, explore narrow waterways or chase that fish that got away. This model features integrated footrests, an adjustable backrest and fore and aft storage wells with bungee cords to help hold your gear in place. It also offers plenty of flat deck space to mount rails and rod holders. Both functional and versatile, the Delta CAT 10.5 is fun for the whole family.

# LIGHT TOURING

ULTRALIGHT PERFORMANCE. OUTSTANDING VERSATILITY.

Delta's light touring kayaks are a great choice for the recreational or transitional paddler looking for better performance in a smaller lightweight design. With plenty of storage capacity for overnight or weekend trips, they offer quick and responsive handling while maintaining a high degree of stability in calm to rougher conditions. A full complement of deck rigging and outfitting features makes these beautiful little boats the "mini sea kayaks" of the Delta fleet.

## DELTA 12.10

The 12.10 is a nimble tripper bound to impress paddlers looking for the perfect combination of versatility, stability and comfort. Ideal for day trips or long weekends, it has enough leg room to allow almost any paddler to feel at ease while paddling this popular light touring kayak. Its extended keel design aids in stability and offers superior tracking than other kayaks in its class. The Delta 12.10 has all the features found in all our longer touring sea kayaks, including front and rear hatches and bulkheads for safety and dry storage. It also features Delta's multi-position Contour II Seat System, Proprietary Press-Lock hatch system and low profile front day hatch.

**2016 FEATURES:** Contour II Seat System, Dual Density Soft Grip Handles, SeaDog Low Profile Footbraces

# TOURING

TOURING PERFORMANCE. EXPEDITION CAPACITY.

Loved by novice to advanced paddlers, the Delta 'Touring' kayaks are comfortable cruisers and boast massive storage capacity for those longer trips. They offer predictable performance and outstanding stability with a drier ride than other boats in their class. The long waterline and multifaceted 'V shaped' hull provide an impressive combination of speed and stability that will inspire the confidence of paddlers in almost any sea conditions.

## CATEGORY

### MODERATE 'V-SHAPED' HULL

The moderate v-shaped hull and pronounced chine of this series of kayaks provide an impressive combination of speed and stability.

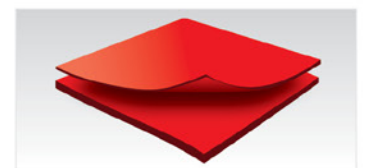

### DELTA RUDDER SYSTEM

Channel mounted and individually tubed rudder lines ensure a smooth and kink-free operation of the delta rudder system. Its aluminum housing and blade provide long lasting performance in a lightweight design.

### ENHANCED STORAGE CAPACITY

Large, accessible storage hatches make loading and unloading gear a breeze.

### THERMOFORM TECHNOLOGY

Durable, lightweight thermoform construction provides high abrasion and impact resistance coupled with superior UV protection so your kayak looks 'like-new' for years to come.

## DELTA 20T

A lightweight and maneuverable tandem with four bulkheads and three dry storage compartments make the 20T an excellent choice for couples, families and tour operators. Higher than average primary and secondary stability is a key design consideration and after your first excursion, you are likely to note how effortless it is to paddle. A true touring tandem, the 20T has the ability to navigate rough conditions even when fully loaded and its narrower beam allows for sporty performance without compromising on stability.

**2016 FEATURES:** Contour II Seat System

# PERFORMANCE TOURING

ADVANCED PERFORMANCE. BUILT FOR ADVENTURE

Optimal balanced performance is what Delta's Performance Touring Kayaks are all about. Whether eating up the miles on long treks or playing in the surf, these boats do it with precision and grace. A shallow "v" shaped hull, moderate rocker and finely tuned chines come together to make these outstanding boats shine on the water. They really do paddle as good as they look.

## CATEGORY

### SHALLOW V HULL WITH PRONOUNCED CHINE

Provides an optimal blend of speed and stability while also allowing for advanced edging and unparalleled tracking.

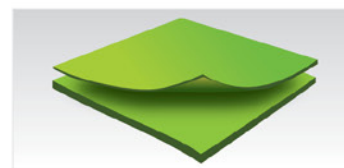

### DELTA SKEG & RUDDER OPTION

Channel mounted and individually tubed rudder lines ensure a smooth and kink-free operation of the delta rudder and spring loaded skeg system.

### DUAL DENSITY SOFT GRIP HANDLES

### THERMOFORM TECHNOLOGY

Durable, lightweight thermoform construction provides high abrasion and impact resistance coupled with superior UV protection so your kayak looks 'like-new' for years to come.

# INFORMATION

## ENVIRONMENTAL CONSIDERATION

Consideration for the environment is an important part of our philosophy at Delta Kayaks. While you are enjoying your kayak in the outdoors, you can be confident in the knowledge that Delta Kayaks are made from materials and construction methods that tread lightly on our planet. The materials used to make Delta Kayaks are safe to manufacture and are completely recyclable. 100% of our scrap material is collected and repurposed so there is no waste.

## MADE IN NORTH AMERICA

All of our kayak models are made right at our manufacturing facility in Maple Ridge, British Columbia, Canada. We use Computer Aided Design (CAD) and years of experience to design our moulds. Much of the final assembly of our kayaks is done by hand so that we can make sure every step of the process is done to our strict standards.

## DELTA KAYAKS WARRANTY

Delta Kayaks is pleased to accompany the finest thermoformed kayaks with a three (3) year limited warranty to the original owner of the kayak. The Delta Kayaks warranty covers defective materials and workmanship when the kayak is used as intended under normal conditions. You can register your kayak online by filling out the form located on our website within 30 days of purchase in order to initiate the warranty.
