

**Armpocket®, The Ultimate Armband® achieves IPX4 and MIL-STD-810G Certification  
and exceeds Military Standards**

MIAMI, FLORIDA - Thursday, June 30, 2016 – Armpocket is proud to announce recent laboratory test results illustrate its Ultimate Armband has established itself as the industry leader in protection, comfort, durability, and overall quality, as the only armband to pass the stringent requirements of the MIL-STD 810G and IPX4 test standards.

Laboratory tests were performed by National Technical Systems (NTS) laboratories in Baltimore, MD and Anaheim, CA to determine performance characteristics when subjected to conditions established by MIL-STD-810G, the most commonly utilized standard for environmental testing for military products. Armpocket armbands exceeded the rigorous criteria for protection against damage, life-cycle wear, ruggedness, and durability. Additional water-proof testing was conducted, where Armpocket achieved an exceptional water-ingress rating of IPX-4: weather, sweat, mud, and splash-proof certification and drop test certified to 6 feet.

“For years, our customers have been telling us how great our Ultimate Armbands are... now we have the test results that prove it,” commented Armpocket President, Jytte Nielsen. “It was great to work with the NTS team through the testing process, they fully understood the test requirements and ensured the testing was properly completed and completed on schedule. Throughout the process we were confident our testing was in good hands.”

NTS’s Manager of IPC Training Services and former Baltimore Lab Director, Debora Obitz was pleased to see the Armpocket’s outstanding testing performance. “It was impressive to see how Armpocket performance surpassed both the IPX-4 and MIL-STD-810G requirements. These results are testimony to the effectiveness of the Ultimate Armband’s unique patented design, high quality materials, and overall superior construction. Armpocket customers should feel confident they are purchasing a truly remarkable, highest quality, smartphone carrying solution.”

**About Armpocket Enterprises, LLC.:** Founded in 2006, Armpocket is the industry leader in designing, manufacturing, and distributing high-quality, eco-friendly armband carrying solutions for active lifestyles. The patented Armpocket Ultimate Armbands are sold in select specialty sporting goods stores, Target, Best Buy, InMotion and online at [www.armpocket.com](http://www.armpocket.com)

**About National Technical Systems, Inc. (NTS):** National Technical Systems (NTS) provides test, inspection and certification services to help clients build better, stronger, safer, more reliable products and bring those products to market quickly and efficiently. Over the last 50 years, through a combination of acquisitions, innovations and organic growth we have grown to become one of the largest commercial test laboratory networks in North America. Our capabilities span a very wide spectrum, covering environmental, dynamics, EMC, wireless, product safety, materials, ballistics and more. NTS engineers and technicians have extensive knowledge of current test and conformity requirements, both domestic and international over a range of industries including aerospace, defense, telecom and energy. For additional information about NTS, visit our website at [www.nts.com](http://www.nts.com) or call 800-270-2516.
