

DreamWave Speakers Mix Survivalist Needs with Unrivaled Sound Quality

Survivor speaker can jumpstart up to a 7.0L V8 vehicle engine

(BREA, Calif. – March 8, 2016) – [DreamWave](#), creator of high performance sound systems and advanced audio tuning, releases three new products, adding to the existing Tremor, Bubble Pod and Harmony speakers. The three newest speakers, the [Tremor](#), [Explorer](#), [Venture](#), and [Survivor](#), meld survivalist tools such as car jump starts, flashlights, power banks, and two-way radios inside. Further, DreamWave is dedicated to providing the highest audio quality in every speaker for a full, clear and deep sound that rivals competitors.

“Our speakers embody not just the high quality sound that authentic audiophiles demand, but each speaker has it’s own flair that make our speaker useful in real-world environments,” said Mark Elkins, director of marketing at DreamWave. “Whether it be a backyard barbecue or a camping trip in the Adirondack, listeners shouldn’t have to sacrifice sound for rugged, durable products.”

New speakers include:

- **Tremor** - is an extremely rugged, high performance 50W Bluetooth speaker sound system, professionally tuned and crafted for the audiophile. You can rock out with Tremor from sunrise to sundown with its rechargeable 20,800mAh lithium polymer battery. MSRP: \$299.99
- **Explorer** – Complete with a bicycle handlebar mount, this speaker plays with 15 watts of premium Hi-Fi, with a 6,000 mAh power bank. With up to 20 hours of playback, the device seamlessly pairs with any Bluetooth-enabled smart device. MSRP: \$149.99
- **Venture** – This 5 watt speaker is also the first two-way radio that can travel up to a three-mile radius MSRP: \$99.99
- **Survivor** – The first speaker to also incorporates a 400-amp emergency 12 volt car battery jump starter, capable of starting a 7.0L V8 engine. The Bluetooth speaker also boasts 30 watts of premium sound and a 12,000 mAh lithium power bank and a 110 lumens LED flashlight with SOS flash sequence MSRP: \$279.99

DreamWave has always included multiple uses in all of its speaker lines, including power banks making them more than just a high quality speaker. All speakers are Bluetooth ready with hands free calling and USB 5v/1A port for wall charging.
