PULL RING Smoke Grenades

FOR FAST & RELIABLE DEPLOYMENT

Superior® Smoke Grenades with pull-ring ignitors can be deployed quickly and easily. Ideal for training simulations in remote areas, they require no additional source of ignition - simply pull the ring and dense white smoke will immediately and rapidly emit from the grenade.

Sportsman Smoke Grenade

Output: 20,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 1/2" by 4"
SKU: SPE

Features wax coating for moisture resistance and increased shelf life.

Tactical Smoke Grenade

Output: 25,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 3/8" by 4"
SKU: TSG

Features recessed smoke port for superior fire protection.

BattleField Smoke Grenade

Output: 70,000 CFT
Duration: 2-3 Minutes
Dimensions: 2 3/8" by 5"
SKU: BFG

Features recessed smoke port for superior fire protection.

Standard Smoke Grenade

Output: 120,000 CFT
Duration: 2-3 Minutes
Dimensions: 2 3/8" by 5"
SKU: G

Professional Smoke Grenade

Output: 130,000 CFT
Duration: 2-3 Minutes
Dimensions: 2 1/2" by 4"
SKU: PG

Features wax coating for moisture resistance and increased shelf life.

Professional Smoke Pot

Output: 500,000 CFT
Duration: 5-6 Minutes
Dimensions: 6 3/4" by 4"
SKU: PSP

Features rugged steel enclosure.

FUSE LIT Smoke Grenades

AFFORDABLE & EFFECTIVE

Smoke Grenades with fuse ignition are simple, cost effective, and feature the same great smoke output and density.

PB-200 Smoke Grenade

Output: 20,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 3/8" by 2 3/4"
SKU: PB200

PB-400 Smoke Grenade

Output: 40,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 3/8" by 4"
SKU: PB400

Emits smoke from both ends for rapid smoke generation.

ELECTRIC FIRE Smoke Grenades

FOR REMOTE IGNITION & CUSTOM APPLICATIONS

Superior® Electric Fire Smoke Grenades are initiated by applying an electrical charge to the grenade via an integrated electric squib ignitor. Using our Remote Ignition System, these grenades can be set off via remote from over 600 feet away! Ideal for shooting range effects, IED simulation, and countless other training applications.

Tactical Smoke Grenade (Electric Fire)

Output: 25,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 3/8" by 4"
SKU: TSG-EF

Features recessed smoke port for superior fire protection.

BattleField Smoke Grenade (Electric Fire)

Output: 70,000 CFT
Duration: 2-3 Minutes
Dimensions: 2 3/8" by 5"
SKU: BFG-EF

Features recessed smoke port for superior fire protection.

Professional Smoke Grenade (Electric Fire)

Output: 40,000 CFT
Duration: 1-2 Minutes
Dimensions: 1 3/8" by 4"
SKU: PS-EF

Features wax coating for moisture resistance and increased shelf life.

Emits smoke from both ends for rapid smoke generation.

Professional Smoke Grenade (Electric Fire)

Output: 130,000 CFT
Duration: 2-3 Minutes
Dimensions: 2 1/2" by 4"
SKU: PG-EF

Features wax coating for moisture resistance and increased shelf life.

Professional Smoke Pot (Electric Fire)

Output: 500,000 CFT
Duration: 5-6 Minutes
Dimensions: 6 3/4" by 4"
SKU: PSP-EF

Features rugged steel enclosure.

REMOTE IGNITION SYSTEM

FOR REMOTE IGNITION & CUSTOM APPLICATIONS

The Superior Signal Electric Fire - Remote Ignition System (EFS-RIS) is a wireless programmable firing system designed to initiate Smoke Grenades on command from 600+ feet. The Remote Ignition System is ideal for training exercises, scenarios, and simulations where instantaneous smoke is needed in multiple locations or in intervals, at the push of a button!

Electric Fire - Remote Ignition System (Mod 4)

Field Modules: 4
Firing Current: 4-5 Amps
Range: 600+ Feet
Case Dimensions: 13" by 9.25" by 5"
Kit Weight: 4 lb (approx)
SKU: EFS-RIS4

Electric Fire - Remote Ignition System (Mod 2)

Field Modules: 2
Firing Current: 4-5 Amps
Range: 600+ Feet
Case Dimensions: 13" by 9.25" by 5"
Kit Weight: 4 lb (approx)
SKU: EFS-RIS2

CARRYING SYSTEMS

FOR SECURE TRANSPORT AND QUICK DEPLOYMENT

Our American Made Smoke Grenade Pouches are PALS/MOLLE compatible and designed to fit most Sport Smoke, Superior and M-18 Smoke Grenades. These pouches feature Mil-Spec webbing, reinforced bar tack stitching, and 1000 Denier Nylon fabric for excellent durability and light weight. The modular design allows for the quick addition or removal of extra pouches to accommodate various smoke grenade load-outs. Sport Smoke Pouches are MADE IN AMERICA and Berry compliant. Available in Black, Coyote Brown, Multicam, and OD Green.

BattleField Smoke Grenade Pouch

Fits:
Sport Smoke BattleField Smoke Grenade
Superior Smoke Grenade
Superior Professional Smoke Grenade
M-18 Smoke Grenade

Berry Compliant

Black
SKU: SGP1-B

Coyote Brown
SKU: SGP1-T

Multi-Cam
SKU: SGP1-M

OD Green
SKU: SGP1-G

Tactical Smoke Grenade Pouch

Fits:
Sport Smoke Tactical Smoke Grenade
Sport Smoke PB-400
Superior Professional Smoke

Berry Compliant

Black
SKU: SGP2-B

Coyote Brown
SKU: SGP2-T

Multi-Cam
SKU: SGP2-M

OD Green
SKU: SGP2-G

Sport Smoke Bandolier

Features:
MOLLE Webbing
Fully Adjustable Length

Berry Compliant
