

Benchmaster Perfect Shot Bench Rest

Benchmaster is proud to announce the newest product in their lineup, the Perfect Shot Bench Rest. Building upon years of success as an industry innovator in stationary shooting platforms, Benchmaster is releasing the Perfect Shot Bench Rest. Ideal for shooters in need of a bench rest that can fit a variety of their firearms while saving weight and money when compared to similar products.

The Perfect Shot Bench Rest was designed to be lightweight, highly adjustable, and durable. The rest is made of steel to provide strength, and it's powder coated to prevent rust and corrosion. The front and rear mounts feature micro and macro adjustability, allowing the shooter to angle their firearm at the desired position while also accommodating a variety of firearm types, magazine lengths, and stock sizes. Additionally, the Perfect Shot Bench Rest can be adjusted lengthways so stock and barrel lengths of varying sizes can fit into the mounts. Further increasing compatibility and adjustability, the rest can also be adjusted to cant left or right to help the shooter find the perfect shooting position.

Not only is the Perfect Shot Bench Rest extremely versatile, but it is compact and affordable as well. For retailers, the rest is packaged in a vibrant multicolored box that measures 19"L x 4"W x 5"H, allowing sellers to maximize their revenue per foot in shelf space. The Perfect Shot Bench Rest can sell for under \$50.00, making it an affordable option, or excellent gift, for any shooter.

Available April 1, 2019, the Benchmaster Perfect Shot Bench Rest has an MSRP of \$49.99 and will be on display at this year's NSSF SHOT SHOW in Las Vegas at Booth #3057. Benchmaster products are available on their website or at any authorized retailer. For questions or comments please contact: customerservice@altusbrands.com.
