

BulletSafe Now Offers An Affordable Bulletproof Vest Design For Every Profession

A promotional image for BulletSafe vests. It features three men standing in front of a green military vehicle. The man on the left is wearing a tactical vest and a cap. The man in the center is wearing a standard vest. The man on the right is wearing a uniform vest. The BulletSafe logo is in the top left corner. The text 'Level IIIA Vests - \$299' and 'Customers are looking for a local dealership right now.' is overlaid at the bottom.

At SHOT Show 2019 BulletSafe will introduce Tactical and Uniform Carrier options for our value-leading bulletproof vests. These options will allow dealers to sell vests for almost every purpose and to almost every customer. These products are priced right. Both options will retail for just \$49 more than our standard level IIIA vest, which retails for just \$299. So your customers can purchase the vest they need for between \$299 and \$348.

Selling the Tactical and Uniform Carrier options separately alleviates your need to stock too much inventory. Dealers will be happy to keep the standard vest on hand and then provide these optional carriers as upgrades.

BulletSafe Vests are already worn by tens of thousands of people every day. With these two carrier options we will expand our reach to meet the needs of everyone with a dangerous job. Our vest also offers level IIIA protection, the highest level of protection in soft armor. Finally, our vest is the best value in the business. These three facts, make BulletSafe the right choice for dealers everywhere.

Visit Booth #2616 or Contact: 1-248-457-6877 or bulletsafe@priveco.com for more information.

Stop by booth #2616 to see these two new options that will increase your sales of the popular BulletSafe Bulletproof Vest. Ask about our SHOT Show special, dealer packages that start at just \$999.
