For Immediate Release:

St Cloud, MN. – **Luth-AR, LLC** Announces the Palm Handguard™.

The Palm Handguard™, free float tube features a triangular profile that conforms to the palm of your hand giving you a secure and comfortable grip on your AR. The Palm Handguard™ is available in Keymod, MLOK™ or Smooth versions with a Picatinny top rail, and attachment slots along both upper sides, as well as a row of attachment slots along the bottom to accommodate accessories such as a bipod.

The lower sides are adorned with the Luth-AR “Double L”, and Cartridge lightening cuts to further reduce weight and provide a distinctive good look.

Available in 7”, 9” and 15” lengths, the Palm Handguard™ is made from 6061-T6 Aluminum extrusion that is hard anodized black. Includes a Palm Handguard™ Barrel Nut made from heat treated alloy steel with a manganese phosphate finish.

Features:

- 7”, 9” or 15” Lengths available
- Includes Palm Handguard™ Barrel Nut
- Includes 3 threaded screws for simple and quick installation

Material: 6061-T6 Aluminum

Finish: Black hardcoat anodized, matte finish

Priced affordably, Dealer, Quantity and OEM pricing is available upon request.

Paired with one of the Luth-AR MBA buttstocks featuring an adjustable cheek rest and length-of-pull, the shooter can custom fit their AR rifle or Carbine to enhance their shooting performance.
