Faxon Firearms Announces Their New FX-19 Line of Pistols

(CINCINNATI, OH) - Faxon Firearms, a Cincinnati, Ohio based manufacturer of quality rifle and pistol components, is excited to announce their new FX-19 line of 9mm pistols.

The FX-19 pistol line is built from the ground up with the quality and precision you have come to expect from Faxon Firearms.

The Patriot is set up in a carry configuration with aggressive serrations in the slide and fiber-optic front sights. The Hellfire is competition oriented with lightening cuts, suppressor-height sights, enhanced aluminum magwell, and a G19 magazine with a Faxon +5 extension.

Both the Patriot and Hellfire come with DLC coated slides, machined in-house from 17-4 stainless steel and our Match Series pistol barrels. The slides feature optic cuts for mounting Trijicon RMR and Holosun 507C red dots.

The Faxon polymer frame utilizes a 1911-style grip angle, custom grip textures, a double undercut trigger guard, and extended beavertail for improved recoil control and faster target acquisition. The frame also features a full picatinny rail for weapon mounted lights.

Both models include an extended magazine release, an Overwatch Precision flat-faced trigger, and one G19 magazine.

Patriot Specs:

- Custom Polymer Frame
- Extended Magazine Release
- Overwatch Precision Trigger with Polished Trigger Bar
- Slides are machined in-house from 17-4 Stainless Steel
- Enhanced front, rear, and top serrations
- Optic cut for Trijicon RMR or Holosun 507C
- Machined posts in optic cuts for optic locating and recoil absorption
- Diamond-Like Carbon (DLC) Finish
- Fiber Optic Front Sight, Blacked-Out Rear Sight
- Includes One G19 Magazine

Hellfire Specs:

- Custom Polymer Frame
- Extended Magazine Release

- Overwatch Precision Trigger with Polished Trigger Bar
- Slides are machined in-house from 17-4 Stainless Steel
- Enhanced front, rear, and top serrations
- Optic cut for Trijicon RMR or Holosun 507C
- Machined posts in optic cuts for optic locating and recoil absorption
- Diamond-Like Carbon (DLC) Finish
- Suppressor-Height Night Sights
- Enhanced, Low-Profile Magwell
- Includes One G19 Magazine with +5 Extension

“We are truly excited to announce our first pistols to the firearms market. After countless hours of design, engineering, testing, and machining, we are extremely proud of the fit, finish, and innovations that went into the FX-19 Patriot and Hellfire. We hope our customers enjoy them as much as we do, and we look forward to debuting them at Shot Show,” said Bob Faxon, President of Faxon Firearms.

There will be opportunities to get a hands-on with the FX-19 Patriot and Hellfire at Faxon Firearms’ new location at Shot Show on the main floor, booth #10072. Faxon Firearms will also have Shot Show dealer specials available with an additional 10%-20% off standard dealer pricing.

About Faxon Firearms: Faxon Firearms is a leader in constant evolution in the firearms marketplace focusing on quality and innovation. From the ARAK platform, rifle and pistol barrels, upper receivers, and an ever-expanding portfolio of innovative accessories, Faxon Firearms offers quality complete rifle systems and components. New dealers and OEM accounts are welcome.
