

Meet Danner's New Recurve Boot for Fall 2020

Performance Heritage for Every Hunt

Inspired by traditional style hunting boots while drawing design and technology cues from Danner's best-selling hiking boots, the all-new Recurve delivers the next generation of performance for use across any type of hunt. Landing Fall 2020, the Recurve features a Vibram® SPE midsole and TPU heel clip to ensure long hours of comfort on preseason scouts and extended treks. With seven inches of height for ankle support and options available with Danner® Dry waterproofing, the Recurve will keep you in the woods and on the hunt longer.

- Waterproof, full-grain leather and nylon upper
- Danner® Dry waterproof protection [47611, 47612, 47613]
- Breathable mesh lining [47610]
