MONECK PAYMENT SOLUTIONS TO EXHIBIT AT WORLD'S LARGEST SHOOTING, HUNTING & OUTDOORS TRADE SHOW

*Industry-Leading Payment Solutions Provider Based Out Of Tempe, AZ To Be Featured At SHOT Show
2022 In Las Vegas, NV*

[Tempe, Arizona, January 12, 2022] — Moneck Payment Solutions, an industry-leading, full-service provider of high and low-risk merchant services for Retail, Card Present, e-commerce, MOTO and POS businesses worldwide — announces it will act as an exhibitor at SHOT Show 2022 in Las Vegas, Nevada.

The Tempe, AZ-based company offers a trusted network of domestic, offshore, and international banking partners with a PCI DSS-compliant payment gateway that allows businesses to use the most reliable and secure payment processing solutions worldwide.

Currently serving over 90+ industries, Moneck is committed to setting the standard for credit card processing solutions to merchants all over the world — including solutions for low-risk, high-risk, or startup businesses.

In an ever-changing business landscape that has been significantly impacted by a global pandemic, Moneck sets the standard with an uncanny level of adaptability to morph to the unique needs of their customer's businesses — ensuring safe, secure, and reliable payment processing solutions. Additionally, due to having multiple bank relationships, Moneck is able to offer their customers various options with payment processors and technology depending on their unique business model and ongoing needs across verticals.

To be featured at the SHOT Show is a tremendous opportunity to expose the brand to the popular firearms industry and cultivate relationships with vendors, consumers, and media partners alike, with Moneck saying:

“We’re thrilled to attend the event and hope to offer new customers a premier payment processing experience. Today, there’s an unfortunate trend towards the removal of a dedicated rep that assists merchants. The big brands in the space are leaving their customers to fend for themselves as they send them to lackluster email support or blog posts.

At Moneck, we help business owners with personalized customer service, education, and payment solutions that fit their business model —not the other way around. While fancy payment tech companies play the numbers game and get as many people signed up and simultaneously lowering traditional human interaction, rapport, and customer service —we’re proud to offer VIP service and relationships that last.”

In coming to Las Vegas, Moneck looks forward to expanding its relationship with the firearms, outdoors, and hunting industries. Unlike many payment processing players, Moneck proudly serves FFL-based businesses with hyper-competitive pricing, endless customization, and customer service they can rely on.

Whether it’s the ease of use and implementation, their highly competitive rates, world-class security, and support —any business looking to expand its operational efficiency and cash flow would be wise to consider Moneck.

If you’re attending the SHOT Show, please visit Venetian Expo Booth #42662 and let us discuss how we can serve your FFL-based business. With your specific needs in mind, let our experts ensure you have the safest, fastest, and most-affordable gun-friendly payment processing to become the backbone of your continued growth.
